Speech-Language Pathologists (SLPs) can help! SLPs are all master's-level educated individuals working to help children & adults improve communication. SLPs provide a variety of coursework & clinical placements prior to becoming SLPs.

SLPs are licensed both by the state in which they practice & the American Speech-Language-Hearing Association (ASHA).

SLPs work with individuals of varying needs & diagnoses in the areas of articulation, expressive and pragmatic language, articulation and phonology, fluency, voice, feeding and swallowing.

SLPs typically work in clinics, schools, hospitals, or nursing homes.

## HOW TO ENCOURAGE SPEECH & LANGUAGE

**Communicative temptations:** create situations where a child needs to gesture, vocalize, or verbalize to have his or her needs met before giving desired object (e.g., bubble blower)

**Imitations:** Having a child imitate you helps him or her to produce words & sounds at appropriate times (e.g., saying "hi" to animal howl as you take them out of the box)

**Expanding:** using a child's language and expanding it to make it more complex (e.g., child says "ball," adult can say "that is your ball")

**Build vocabulary:** target and engage relevant new words (e.g., seasonal words) to help build vocabulary

**Read aloud:** emphasize & reinforce new words, ask questions about the story while reading, ask child to retell the story (if age appropriate)

**Ask questions:** posing questions about daily activities are a great way to encourage language skills, including naming & understanding functions.

**Narrate everything:** modeling your own speech and language can increase exposure to correct production & enhance a child's abilities.
