of humanity and developed important works as a physicist inventor philosopher and Catholic thinker Born in France while
still young he was responsible for significant advancements in the study of fluids natural and applied sciences and
particularly in mathematics being one of the precursors of probability analysis From a mystical experience in 1654 he began
to dedicate himself intensely to philosophy and theology areas in which he also excelled His work Pens es condenses his
worldview into faith and spirituality In it we find what is probably his most quoted phrase The heart has its reasons of which
