Randall, Dianne Bowskill, 2024-10-21 Take an evidence based approach to prescribing decisions with this comprehensive guide Prescribing decisions are among the most important parts of clinical practice Balancing patient needs possible drug interactions the probability of adverse drug reactions and more requires an evidence based approach rooted in pharmacological principles The New Prescriber An Integrated Approach to Medical and Non medical Prescribing offers a thorough accessible introduction to the core components of prescribing essential for any student preparing for clinical practice Now fully updated to reflect the latest best practices and to address questions raised by different prescribing settings it promises to continue as the key introduction to this vital subject Readers of the second edition of The New Prescriber will also find An introduction to the principles of pharmacodynamics and pharmacokinetics New sections covering topics including illegal and illicit drugs overdose and deprescribing and more A thorough glossary with key terms The New Prescriber is ideal for all non medical prescribing students nursing allied health professionals and medical students

**The Gift of Caring** Marcy Cottrell Houle, Elizabeth Eckstrom, 2015-07-01 The desire to help our elders navigate health issues is clear and universal how to assure proper care and a good ending is not Combining adroit storytelling skills with expert advice The Gift of Caring Saving Our Parents from the Perils of Modern Healthcare brings the reader into all too familiar scenarios facing our aging parents and offers answers to questions we may not know to ask until it s too late Author and biologist Marcy Houle shares her personal journey of caring for her father a surgeon who developed Alzheimer s and later her mother who succumbed to other medical conditions Like many children of aging parents Marcy often felt powerless traveling this sad trajectory watching them fall through the cracks of a fragmented and confusing healthcare system where professionals often wrote off their symptoms as just old age Not having the understanding of the changes that come with aging she was led to believe there was nothing she could do to help The tragic secret According to coauthor and geriatrics physician Elizabeth Eckstrom these symptoms frequently are not just old age Rather the problem is that the current healthcare delivery model for older people is ill equipped to provide the comprehensive person centered care seniors need Today thousands of aging people face unnecessary suffering hospitalizations nursing home stays and even death due to complications that could have been prevented or treated Even more troubling many healthcare professionals have had little or no training in the care of older adults The Gift of Caring reveals these pitfalls and provides families with tools they can use to avoid them Interspersed with every few chapters of Marcy s riveting story Dr Eckstrom shares professional medical insights compiled from the latest research into what Marcy could have done to safeguard her parents She shows us how to navigate the system how we can become our loved one s best advocate and what we need to know to achieve healthy aging and meaningful compassionate final years Honest at times humorous and ultimately uplifting The Gift of Caring sheds new light on aging from twin perspectives a story of a daughter

desperately seeking help for the parents she loves and a geriatrician who gives us the knowledge we need to insist upon a better way

**Interface** ,1989      Data Integrity and Data Governance Robert D McDowall,2018-11-06 Data integrity is the hottest topic in the pharmaceutical industry Global regulatory agencies have issued guidance after guidance after guidance in the past few years most of which does not offer practical advice on how to implement policies procedures and processes to ensure integrity These guidances state what but not how Additionally key stages of analysis that impact data integrity are omitted entirely The aim of this book is to provide practical and detailed help on how to implement data integrity and data governance for regulated analytical laboratories working in or for the pharmaceutical industry It provides clarification of the regulatory issues and trends and gives practical methods for meeting regulatory requirements and guidance Using a data integrity model as a basis the principles of data integrity and data governance are expanded into practical steps for regulated laboratories to implement The author uses case study examples to illustrate his points and provides instructions for applying the principles of data integrity and data governance to individual laboratory needs This book is a useful reference for analytical chemists and scientists management and senior management working in regulated laboratories requiring either an understanding about data integrity or help in implementing practical solutions Consultants will also benefit from the practical guidance provided

**Oxford Desk Reference: Obstetrics and Gynaecology** Sabaratnam Arulkumaran,Lesley Regan,Aris Papageorgiou,Ash Monga,David Farquharson,2011-06-23 This irreplaceable reference compiles the most up to date and relevant material on obstetrics and gynaecology into one volume Strongly evidence based it includes the latest knowledge and guidelines from a wide range of sources and contains the key recommendations that a practising obstetrician or gynaecologist needs to know presenting them in a uniform and accessible way allowing for quick diagnosis and optimal care In line with the Royal College of Obstetrics and Gynaecology curriculum for specialty training this book covers not just the clinical knowledge required but also information on the communication technical and professional skills needed to practise in the specialty With each chapter written by internationally renowned specialists and edited by five of the leading figures in obstetrics and gynaecology this book will be a vital resource for all practising clinicians

methodological from its beginning These proceedings represent discussions and contributions to ongoing challenges One challenge comes from emerging new technologies connected to social computing gaming as well as applications supporting citizen participation in their communities As boundaries between home and work erode with the increased movement of work into home environments and new applications further blur the once separate conceptions of work and leisure our intellectual community faces challenges in the ways we think about and study work Other challenges result from transformations of the world of work itself and the role of IT in these They have been taken up in in depth studies of design practice software development and manufacturing as well as in the growing body of research on health care contexts and applications Finally there is the question of what is the European perspective in our community and whether it is worthwhile to anchor our research more firmly in such a perspective Of high relevance to our field is the strong grounding of technology development in an understanding of human activity The nineteen full papers four short papers and one discussion paper selected for this conference deal with and reflect on some of these challenges thus representing the lively debate currently ongoing in our field of research
