Blended Synchronous Learning A Handbook For Educators:

Blended Synchronous Learning Matt Bower, Gregor Kennedy, Barney Dalgarno, Mark J. W. Lee, Jacqueline Kenney, 2014
The Blended Synchronous Learning Handbook is the primary output of the Blended Synchronous Learning Project. It includes the summative findings of the Blended Synchronous Learning case studies, a Blended Synchronous Learning Design Framework, and a range of other resources and information to support blended synchronous learning design research and practice website. *Blended Synchronous Learning* Matt G Bower, 2014-11-07. Blended synchronous learning, where remote students participate in face-to-face classes by means of rich media synchronous technologies such as video conferencing, web conferencing, and virtual worlds, is an emerging phenomenon in education. More and more teachers are attempting to teach in this challenging mode but without any systematic research evidence to help guide their blended synchronous learning practices. The Blended Synchronous Learning Handbook is a definitive resource that addresses this issue. It includes a Blended Synchronous Learning Design Framework that offers pedagogical, technological, and logistical recommendations for teachers attempting to design and implement blended synchronous learning lessons. It also includes a Rich Media Synchronous Technology Capabilities Framework to support the selection of technologies for different types of learning activities, as well as a review of relevant literature, a summary of the Blended Synchronous Learning Scoping Study, detailed reports of seven blended synchronous learning case studies, and an in-depth cross-case analysis to underpin the recommendations that are drawn.

Museums and Interactive Virtual Learning Allyson Mitchell, Tami Moehring, Janet Zanetis, 2022-04-19. Museums and Interactive Virtual Learning provides informal educators with practical resources that will help them to build dynamic digital engagement experiences within their own cultural organizations. Presenting vignettes from experienced museum educators and end users, as well as scientific data and practical resources, the book highlights the mutual benefits that Interactive Virtual Learning (IVL) programs offer to the museum and those visiting from a distance. Chapters mirror the step-by-step process of developing reputable IVL programs and emphasize how important it is for cultural organizations to encourage cross-departmental collaboration if they wish to ensure that their programs align with the overall goals of the organization. Providing a thorough overview of the technologies, budget, marketing, and staff requirements, the authors offer a realistic depiction of the work involved in building content for digital engagement. Emphasizing the importance of assessing existing programming, the book shows how institutions can adapt content to fit a virtual format and create inclusive digital engagement opportunities that reach local, national, and international audiences. Museums and Interactive Virtual Learning is an essential guide for professionals who are tasked with interpreting the content of a cultural organization and building

lasting digital engagement opportunities It will be particularly useful to those looking to reach diverse audiences
