Disrupting Class: How Disruptive Innovation Will Change the Way the World Learns Clayton M. Christensen, Curtis W. Johnson, Michael B. Horn, 2008-06-08 Selected as one of the Best Books on Innovation 2008 by BusinessWeek magazine Named the Best Human Capital Book of 2008 by Strategy Business magazine A crash course in the business of learning from the bestselling author of The Innovator's Dilemma and The Innovator's Solution Provocatively titled Disrupting Class is just what America's K 12 education system needs a well thought through proposal for using technology to better serve students and bring our schools into the 21st Century Unlike so many education reforms this is not small bore stuff For that reason alone it's likely to be resisted by defenders of the status quo even though it's necessary and right for our kids We owe it to them to make sure this book isn't merely a terrific read it must become a blueprint for educational transformation Joel Klein Chancellor of the New York City Department of Education A brilliant teacher Christensen brings clarity to a muddled and chaotic world of

education Jim Collins bestselling author of Good to Great According to recent studies in neuroscience the way we learn doesn't always match up with the way we are taught If we hope to stay competitive academically economically and technologically we need to rethink our understanding of intelligence reevaluate our educational system and reinvigorate our commitment to learning In other words we need disruptive innovation Now in his long awaited new book Clayton M Christensen and coauthors Michael B Horn and Curtis W Johnson take one of the most important issues of our time education and apply Christensen's now famous theories of disruptive change using a wide range of real life examples Whether you're a school administrator government official business leader parent teacher or entrepreneur you'll discover surprising new ideas outside the box strategies and straight A success stories You'll learn how Customized learning will help many more students succeed in school Student centric classrooms will increase the demand for new technology Computers must be disruptively deployed to every student Disruptive innovation can circumvent roadblocks that have prevented other attempts at school reform We can compete in the global classroom and get ahead in the global market Filled with fascinating case studies scientific findings and unprecedented insights on how innovation must be managed Disrupting Class will open your eyes to new possibilities unlock hidden potential and get you to think differently Professor Christensen and his coauthors provide a bold new lesson in innovation that will help you make the grade for years to come The future is now Class is in session

Disrupting Class, Expanded Edition: How Disruptive Innovation Will Change the Way the World Learns Clayton M. Christensen, Curtis W. Johnson, Michael B. Horn, 2016-10-24 THE BOOK THAT'S CHANGING THE FUTURE OF EDUCATION A brilliant teacher Christensen brings clarity to a muddled and chaotic world of education Jim Collins bestselling author of Good to Great A terrific read it must become a blueprint for educational transformation Joel Klein former Chancellor of the New York City Department of Education Studies in neuroscience reveal that the way we learn doesn't always match up with the way we are taught To stay competitive academically economically and technologically we need to apply the proven principles of disruptive innovation to our educational system Disrupting Class will show you how to Help more students succeed through customized learning Meet the demand for new technology especially computers in student centric classrooms Use disruptive innovation to circumvent roadblocks that have stood in the way of reform Compete in the global classroom and help students get ahead in the global market Filled with fresh and surprising ideas outside the box strategies and straight A success stories Disrupting Class will make you rethink your understanding of intelligence reevaluate your current school program and reinvigorate your commitment to learning The future is now Class is in session *The Rise of K-12 Blended Learning* Heather Staker, 2011 Some innovations change everything The rise of personal computers in the 1970s decimated the mini computer industry TurboTax forever changed tax accounting and MP3s made libraries of compact discs obsolete These innovations bear the traits of what Harvard Business School Professor Clayton M Christensen terms a disruptive innovation Disruptive innovations fundamentally transform a sector by replacing expensive complicated and

inaccessible products or services with much less expensive simpler and more convenient alternatives Online learning appears to be a classic disruptive innovation with the potential not just to improve the current model of education delivery but to transform it Educators and entrepreneurs are increasingly creating blended learning environments where rather than doing online learning at a distance students learn in an adult supervised school environment for at least part of the time This paper profiles 40 organizations that have blended or have plans to blend online learning with brick and mortar classrooms These represent a range of operators including state virtual schools charter management organizations individual charter schools independent schools districts and private entities The organizations profiled in this paper are not a top 40 list Thousands of other schools are currently participating in blended learning and may have superior programs Furthermore this report does not provide a comprehensive market analysis but rather a survey that offers a more intimate look at a small sample with the intention to identify emerging models Appended are 1 List of programs by model 2 Technology wish list and 3 Policy wish list Contains 12 figures

From Reopen to Reinvent Michael B. Horn, 2022-07-13 A practical blueprint to rebuilding an education system that is no longer working for its students In *From Reopen to Reinvent* distinguished education strategist Michael B Horn delivers a provocative and eye opening call to action for the overthrow of an education system that is not working well for any of its students Grounded in what educators should build in its place to address the challenges that stem from widespread unmet learning needs the book walks readers through the design of a better path forward Using time tested leadership and innovation frameworks like Jobs to Be Done Begin with the End tools of cooperation threat rigidity and discovery driven planning *From Reopen to Reinvent* offers a prescriptive and holistic approach to the purpose of schooling the importance of focusing on mastery for each student and the ideal use of technology It also provides readers with A set of processes and ideals that schools should implement to deal with the challenges they presently face A way to transform threats into opportunities using threat rigidity research A discussion of how the COVID 19 pandemic revealed that schools are not as flexible and equitable as we need them to be Perfect for K 12 educators and parents and school board members involved in the school community *From Reopen to Reinvent* is also an essential resource for professionals working in education related non profits and state education agencies
