investing in and controlling the Buenos Aires property market In a short period from 1776 to 1810 the urban transformation of Buenos Aires helped increase the Crown s revenues and considerably reduced contraband trade Nevertheless urban changes generated an internal struggle for power for the control of the city between the Spanish loyalist and the local wealthier Creoles As this book concludes for an empire such as the Spanish which was built upon a network of cities the Crown s loss of the control of Buenos Aires urban space was a serious threat to its power that foreshadowed Argentina s wars of independence
