Case Projects- Chapter 6

Case Project 6-1: Designing a Wireless Network for Roaming Team Members

I would recommend Chayton Inline's community college CIO implement a wireless network that authenticates users technology. I would install servers points that would allow the user to connect to the network is network in ways that are dark efficient I would resume the college administration on a using laptops. If not I would recommending purchase laptops. I would put servers points in areas that currently do not have to have limited access to the current team lab.
