Common Law Et Tradition Civiliste Convergence Ou Concurrence:

Common law et tradition civiliste Duncan Fairgrieve, Horatia Muir Watt, 2006 Convergence ou concurrence La globalisation économique génératrice de compétition entre systèmes juridiques et l'europanisation du droit puissant facteur d'harmonisation invitent à s'interroger sur l'état des relations d'interaction d'opposition ou d'influence réciproque entre la tradition de common law et le modèle civiliste Si les droits anglais et français partagent aujourd'hui de nombreuses sources et valeurs communes qu'elles soient communautaires ou en provenance de la Convention européenne des droits de l'homme et si par ailleurs le droit américain exerce un important pouvoir d'attraction sur les systèmes juridiques civilistes il n'en reste pas moins que des différences fondamentales demeurent entre les deux traditions de pensée que ce soit sur un plan institutionnel pistomologique ou substantiel Cet ouvrage mène la comparaison travers ces trois dimensions du droit s'attachant à cerner l'origine et le contenu des spécificités de chaque tradition sans pour autant ignorer les mutations que leur imprime leur environnement européen ou mondial

Extraterritoriality and Collective Redress Duncan Fairgrieve, Eva Lein, 2012-09-27 An expert analysis of the relevant law and jurisprudence in mass litigation this edited work examines the diverse and complex transnational considerations and issues of collective redress With contributions from distinguished and authoritative commentators on this topic the coverage is broad thorough and practically focused The book offers new perspectives on the challenges of collective redress as it innovatively combines a comparative and cross border approach Organized clearly into sections it provides in depth comment on these challenges from a national European and global perspective With detailed analysis of the relevant law and jurisprudence in this area offering a significant practical impact this book also examines possible solutions to the challenges identified covering important topics and issues within collective redress mechanisms the private international law perspective on collective redress reception of foreign collective redress and extraterritoriality and US law Including contributions from the jurisdictions most relevant to these conflict of laws issues this book unites global expertise to provide information on a complex topic and offer a solution based approach to the collective redress landscape

Tort Law and the Legislature TT Arvind, Jenny Steele, 2012-12-21 The study of the law of tort is generally preoccupied by case law while the fundamental impact of legislation is often overlooked At a jurisprudential level there is an unspoken view that legislation is generally piecemeal and at best self contained and specific at worst dependent on the whim of political views at a particular time With a different starting point this volume seeks to test such notions illustrating among other things the widespread and lasting influence of legislation on the shape and principles of the law of tort the variety of forms of legislation and the complex nature of political and policy concerns that may lie behind their enactment the sometimes unexpected consequences of statutory reform and the integration not only of statutory rules but also of legislative policy into the operation of tort law today The apparently sharp distinction between judicially created private law principles and democratically enacted legislative rules and policies is therefore questioned and it is argued that

to describe the principles of the law of tort without referring to statute is potentially highly misleading This book shows that legislation is important not only because of the way it varies or replaces case law but because it also deeply influences the intrinsic character of that law providing some of its most familiar characteristics The book provides the first extended interpretation of legislative intervention in the law of tort Each of the chapters by leading tort scholars deals with an aspect of the influence of legislation on the law of tort While the nature sources and extent of legislative influence in personal injury law is an essential feature of the collection other significant areas of tort law are explored including tort in the context of commercial law labour law regulation and the welfare state Essays on the Compensation Act 2006 and Human Rights Act 1998 bring the current state of the interplay between tort politics and legislation to the forefront In all of these contexts contributors explore the deeper lessons that can be learned about the nature of the law of tort and its changing role and functions over time Cited with approval in the Singapore Court of Appeal by VK Rajah JA in *See Toh Siew Kee vs Ho Ah Lam Ferrocement Pte Ltd and others* 2013 SGCA 29

Modernization and Urban Water Governance Thomas Bolognesi, 2017-08-24 This book describes the impact of modernization on the organization and sustainability of Urban Water Systems in Europe UWSEs Bolognesi explains that the modernization of UWSEs was a regulatory shock that began in the 1990s and was put into action with the EU Water Framework Directive in the year 2000 This process sought to reorganize water governance in order to achieve certain sustainability goals but it fell short of expectations Modernization and Urban Water Governance provides an update on the organization and sustainability of UWSEs while drawing from a comparative analysis of German French and English water models and an institutionalist explanation of the current situation With a focus on transaction costs property rights allocation and institutional environments this book argues that the modernization of UWSEs tends to depoliticize these systems and make them more resilient but also limits their potential for sustainable management This book will be relevant to those wishing to understand the real impacts of water reform in Europe according to national contingencies

Common Law - Civil Law Nicoletta Bersier, Christoph Bezemek, Frederick Schauer, 2022 This book offers an in depth analysis of the differences between common law and civil law systems from various theoretical perspectives Written by a global network of experts it explores the topic against the background of a variety of legal traditions Common law and civil law are typically presented as antagonistic players on a field claimed by diverse legal systems the former being based on precedent set by judges in deciding cases before them the latter being founded on a set of rules intended to govern the decisions of those applying them Perceived in this manner common law and civil law differ in terms of the main source s of law who is to create them who is merely to draw from them and whether the law itself is pure each step of the way or whether the law s purity may be tarnished when confronted with a set of contingent facts These differences have deep roots in legal history roots that allow us to trace them back to distinct traditions Nevertheless it is questionable whether the divide thus depicted is as great as it may seem international and supranational legal systems unconcerned by national peculiarities appear to level the playing field A normative understanding of constitutions seems to grant ever greater authority to High Court decisions based on thinly worded maxims in countries that adhere to the civil law tradition The challenges contemporary regulation faces call for ever more detailed statutes governing the decisions of judges in the common law tradition These and similar observations demand a structural reassessment of the role of judges the power of precedent the limits of legislation and other features often thought to be so different in common and civil law systems The book addresses this reassessment
