Brief Yet Concise Guide To Revolutions:

The Oxford History of the French Revolution William Doyle, 2018-06-29 Since its first publication to mark the bicentenary of the French Revolution in 1989 this Oxford History has established itself as the Revolution's most authoritative and comprehensive one volume history in English and has recently been translated into Chinese. Running from the accession of Louis XVI in 1774 it traces the history of France through revolution, terror and counter revolution to the final triumph of Napoleon in 1802. It also analyses the impact of events in France upon the rest of Europe and the world beyond. The study shows how a movement which began with optimism and general enthusiasm soon became a tragedy not only for the ruling orders but also for the millions of ordinary people whose lives were disrupted by religious upheaval, economic chaos and civil and international war. Now in its third edition this volume has been fully updated in the light of current research and includes an appendix surveying the past and present historiography of the revolutionary period.

Watson,1874 The Russian Revolution and Civil War 1917-1921 Jonathan Smele,2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state
