A Precarious Happiness Peter E. Gordon, 2024-01-02 Readers of Theodor Adorno often have understood him as a totalizing negativist. If it truly is the case that Adorno saw modern society as a realm of complete falsehood, however, his own social theory is unintelligible. In *A Precarious Happiness*, Peter E. Gordon aims to redeem Adorno from this negativist interpretation by showing that it arises from a basic misunderstanding of his work. Pushing against entrenched interpretations, Gordon argues that Adorno's philosophy is animated by a deep attachment to a concept of happiness or human flourishing, and it is only by virtue of that normative standard that Adorno judges the world a catastrophic failure. Through a comprehensive reading of Adorno's work, *A Precarious Happiness* shows that in an imperfect world, the available standards of our flourishing are also imperfect. Looking beyond Adorno, Gordon suggests that the practice of social criticism, even if it is directed toward exposing what is false, cannot succeed without appealing to an unrealized notion of what would be right.

China 1949-2019 Paolo Urio, 2019-06-27 The objective of this book is to take stock of the research Paolo Urio has conducted since 1997 on the rise of modern China with emphasis on strategic public management. The starting point of the book is China's will to recover world power status. This objective is of paramount importance for understanding the policies implemented since 1949, their rationale, content, and consequences upon Chinese society and economy, as well as their sequence in time, i.e. the underlying grand strategy. Starting from these premises, the book proposes an analysis of the contradictions that have developed within China since 1949, the positive and the negative consequences of the public policies implemented to overcome these imbalances, i.e. the Communist Party's loss of reputation at the end of Mao era, the introduction of market mechanisms by Deng, and the resulting imbalances within Chinese economy, society, and environment; the rebalancing policies of the Hu Jintao era; and finally the assertive power policies of Xi Jinping, both nationally (e.g. the fight against corruption) and internationally (i.e. China's new role in the world, especially as a competitor of the United States).

The End of the Museum Kevin Coffee, 2025-08-08 This provocative book challenges frequently voiced assertions regarding museums as necessary and valued modern institutions It raises fundamental existential questions about contemporary museums as products of the modern colonial world order Drawing on practical examples of collecting and exhibiting theoretical research and critique from diverse countries across the globe including Chile India Korea the Netherlands Nigeria Palestine Portugal Sri Lanka and the United States this book moves beyond the conventional Eurocentric museological framework This book synthesizes contemporary critiques of museums while arguing

that societies need the sociocultural examinations that museums are capable of facilitating and that radical transformations of the museum are fraught with difficulty but also possible and necessary Ultimately Coffee argues that museums can only be future orientated if they are transformed into agents of social justice and inclusion divestors of illicit collections and proponents of a liberatory ethic opposing neo colonialism in all of its forms During that transformative process as this book demonstrates museum practice and museum theory must also be transformed The End of the Museum Culture Colonialism and Liberation will appeal to students researchers and practitioners interested in a critical examination of museum work and theory
