

Lab 3 –Precipitation Reactions in Solutions– Lab Report

CHM 2045L -Dr. Yavuz Petrowski

The statement is: "I certify that this is my own work and I understand that if I am found to be in violation of the honor code, I will be subject to the highest penalty"

PRELAB: Background: Please complete the following sections.

Purpose of the experiment: In your own words, the purpose of the experiment including a brief description of the lab and the reason for doing the experiment (what we are trying to determine and how we will go about determining it). Explain the concepts we are investigating; explain why and how they are useful, how those concepts apply to the experiment; show relevant equations if you need to.

The purpose of the "Precipitation Reactions in Solutions" experiment is to explore and understand how chemical compounds in water solutions can combine to form solid precipitates. This experiment helps us determine which will result in the formation of these solids and how we can predict and control these reactions. for this lab, we will mix solutions with different compounds and observe any visible changes. then we will determine which results in a reaction.
