Sheffield, Douglas E. Cruikshank, 1996 **Teaching and Learning Mathematics** Linda Jensen Sheffield, Douglas E. Cruikshank, 2004-03-29 Help students make sense of mathematics Rather than merely discussing how to improve students ability to do mathematics this fifth edition focuses on helping them make sense of mathematics Based on research on the functioning of the mind as it engages in learning the text supports teachers as they promote mathematical understanding strengthen students abilities to think and help students to attain computational fluency Features A rich collection of ready to use learning activities Fully integrated language and intent of Principles and Standards for School Mathematics PSSM A greater emphasis on problem solving and higher level thinking A greater focus on teaching mathematics to diverse learners Descriptions of a variety of promising and effective mathematics programs for the K 8 levels **Writer's Choice**

Cooperative Learning Activities Grade 8 McGraw-Hill Staff, 2000-07 **New Directions in Elementary School Mathematics** Emma E. Holmes, 1995 A new book that focuses on interactive teaching a new more effective technique for

helping elementary school children learn mathematics KEY TOPICS It has an interactive teaching approach with its focus on reasoning problem solving and communicating has been proven effective with children at all levels of mathematics competence Coverage examines the use of models and children s intuitive understanding to help young learners develop mathematics concepts and learn problem solving procedures Includes a chapter devoted to using interactive teaching with children with special needs For educators in the field of mathematics *Teaching Mathematics in Elementary and Middle School* Joseph G. R. Martinez,Nancy Conrad Martinez,2007 With an emphasis on inquiry and process Teaching Mathematics in Elementary and Middle School embraces active mathematics instruction and the development of mathematical thinking through problem solving The text challenges future teachers to prepare their K 8 students for a world that requires a higher level of mathematical literacy and enables them to compete in a global society Teachers will develop their own mathematical abilities allowing them to help students discover a rich combination of thinking processes and problem solving strategies raising the learning expectations for all Unique text features TIE Thought Investigation and Exploration features ask pre service teachers to develop their own thinking and learning abilities preparing them to better challenge their students Mathematics in the Real World Idea Files and Teacher Profiles model best practices and supply readers with concrete teaching tools and strategies Mathematical Thinking Mathematical Games and Mathematics and Technology features detail activities to engage and develop students mathematical thinking Accompanying student artifacts illustrate the progression of students conceptual understanding CD logo replaces bullet Math Activities CD ROM provides an outstanding text component containing more than 100 activities that use a three step process explore invent discover to foster the development of mathematical thinking through guided inquiry Aligned with the NCTM standards each activity is integrated within the text and designed to help develop students conceptual understanding of mathematics Mathematics in Literature offers thoroughly developed ideas for using children s literature to create meaningful contexts for mathematics learning An extensive bibliography that can be used for this purpose appears on the CD Rom I think the text is an excellent resource for elementary and middle school methods courses In particular I like how the textbook handles the bigger issues such as geometric reasoning rather than just geometry I also like the excellent foundation in educational research that the textbook provides as well as some very careful attention and consistent referencing to the NCTM standards and principles The incorporation of classroom vignettes teacher illustrations and samples of student work also all add to the excellent grounding of the text in real world classroom work Dr Neal Grandgenett University of Nebraska at Omaha Reading for Learning in the Sciences Florence Davies,Terry Greene,1984 *Class Activities to Accompany Mathematics for Elementary Teachers* Sybilla Beckmann,Sybilla Beckmann-Kazez,2004-08 The goal of this text is to provide prospective elementary teachers with a deep understanding of the mathematics they will be called on to teach Through a careful mathematically precise development of concepts this text asks that students go beyond simply knowing how to carry out mathematical procedures Students must

also be able to explain why mathematics works the way it does Being able to explain why is a vital skill for teachers Through activities examples and applications the author expects students to write and solve problems make sense of the mathematics and write clear logical explanations of the mathematical concepts The accompanying Activities Manual promotes engagement exploration and discussion of the material rather than passive absorption Both students and instructors should find this material fun interesting and rewarding Activities Manual for Elementary School Teachers - Mod Math Wheeler,1995 This book was published exclusively with the goal of preparing students to be future elementary school teachers This four color book is exactly the same as Wheeler and Wheeler s Modern Mathematics Ninth Edition with the following additions The preface was written directly with the goal of educating elementary school teachers NCTM Standards are included in the book s end papers and Reproductions of actual pages from four color elementary school textbooks have been added Guided by a team of reviewers and suggestions from more than 130 professors the authors have produced an important revision At the beginning of each section goals and objectives have been replaced by statements from the NCTM Standards Within each section the authors present the content examples problem sets and laboratory exercises that fulfill the philosophy and the direction suggested by the Standards In this edition Ruric Wheeler is joined by his son Ed as co author An activities manual for prospective elementary school teachers has been completely rewritten by a team of authors with many years of experience teaching elementary and middle school students In addition to a rich variety of activities it includes Talk to Teachers a section that discusses the significance of each activity in the growth and preparation of the young student
