The Study Guide for Excellent Results Andrea Nissen, 2014-09-27 Most schools develop uniform teaching methods to educate students This approach proves to be quite efficient in many aspects for the educational system The downside however is that it cannot assure that all students understood the lesson Each person learns through different approaches The typical lecture setting may be an effective way for some but others will find it difficult to grasp the material Admiringly there are some institutions that extend extra effort to apply the different learning methods to boost the performance of their students This is the reason why some professors combine lectures group works projects reports and such in their syllabi They aim to give each learner a chance to comprehend the lesson by applying it in different ways However as a student you may never understand the way you learn even when professors go this extra mile When studying for exams it s important for every learner to self study but there can be more than one way to review Your job as a person of

Everyday Study Guide David Brown,2014-09-11 There are several types of study guides for several different subjects but in the end the point is the same They help Many people lose focus while practicing for an exam or doing their homework but a study guide forces them to pay attention to what they are doing and what they should be reviewing rather than memorizing something that will never be brought up in class Study guides are also great for those who learn through repetition The guide sys exactly what they need to know and they can read it as many times as they would like without worry that they misunderstanding the information Often study guides when given by a teacher have both the questions and the answers that will later be on the test It is basically cheating without the guilt which is a pretty gosh darn great Study guides are essentially one of the best tools any student could possibly have Without them they have to focus and study much harder than necessary and most likely will not absorb as much information If you want to pass that exam use a study guide
