The Humanities Pandemic Margaret Topping, 2023-07-25 This book explores how the Humanities can play an essential services role in addressing global challenges such as the Covid pandemic In arguing for their contribution alongside that of the Health Sciences it calls for a new critical engagement honest and self reflective from Humanities scholars with the question of how to overcome a fundamental challenge facing universities globally finding a common language and set of cultural assumptions between disciplines as the basis for communication The book looks at the nature of the challenges that can beset collaboration across disciplines and indeed across sectors notably between researchers and the general public and argues for a new Translational Humanities in both the sense of an applied Humanities and a Humanities that can translate itself across disciplines and sectors Crucially too it suggests that it is not narratives such as a pandemic novel or contagion film that successfully engage with contentious debates about the challenges of Covid but rather critically distant texts and thematic contexts that typically place the self in the position of other like travel narratives This book sits at a previously unconsidered intersection between debates around interdisciplinary collaboration and communication theories of intercultural contact and encounter and the role of the Humanities in tackling global issues *The Cinema of Steven*

The Forbidden Body Douglas E. Cowan, 2022-05-17 Throughout history the religious imagination has attempted to control nothing so much as our bodies what they are and what they mean what we do with them with whom and under what circumstances how they may be displayed or more commonly how they must be hidden Religious belief and mandate affect how our bodies are used in ritual practice as well as how we use them to identify and marginalize threatening religious Others This book examines how horror culture treats religious bodies that have stepped or been pushed out of their proper place Unlike most books on religion and horror This book explores the dark spaces where sex sexual representation and the sexual body come together with religious belief and scary stories Because these intersections of sex horror and the religious imagination force us to question the nature of consensus reality supernatural horror especially as it concerns the body often shows us the religious imagination at work in real time It is important to note that the discussion in this book is not limited

either to horror cinema or to popular fiction but considers a wide range of material including literary horror weird fiction graphic storytelling visual arts participative culture and aspects of real world religious fear It is less concerned with horror as a genre which is mainly a function of marketing and more with the horror mode a way of storytelling that finds expression across a number of genres a variety of media and even blurs the boundary between fiction and non fiction This expanded focus not only deepens the pool of potential examples but invites a much broader readership in for a swim
