

## Master Document – Audit Program

Activity Code 17750		EVMS, System and Report Surveillance
Version 4.3, dated June 2007		
B-1	Planning Considerations	
Purpose		
<p>This audit program is intended for use in performing the annual earned value management system (EVMS) surveillance audit in those years where both system and report surveillance is required. If system surveillance is not required, and the surveillance audit will be limited to report surveillance only, the audit should be set up and performed under activity code 17760, EVM Report Surveillance (Report Only).</p>		
<p>This program is intended to provide a logical sequence to the audit effort, and to reflect a mutual understanding between the auditor and the supervisor as to the scope required to meet auditing standards and DCAA objectives for the current assignment. The audit steps in the program are intended as general guidance and should be modified as considered necessary to fit the current audit. Those steps not required should be marked "not applicable" (N/A), lined through, or deleted, as appropriate for your FAO. Portions of the audit which are covered in other assignments (e.g., audits of billing system, budgeting system, progress payments, MMAS, estimating system) should be referenced at the appropriate place in this program.</p>		
<p>The primary objective of EVMS guidelines is to ensure that contractors use effective internal cost and schedule control systems that provide contractor and Government managers with timely and auditable data to effectively monitor their programs, meet requirements, and control contract performance. In accordance with DoD policy, compliance with EVMS guidelines shall be required on significant contracts, subcontracts, or agreements within all acquisition programs, unless waived by DoD during the acquisition process. For this purpose, significant contracts/agreements are defined as research, development, test, and evaluation (RDT&amp;E) contracts/agreements with a value of \$73 million or more and procurement or operations and maintenance (O&amp;M) contracts/agreements with a value of \$315 million or more (in fiscal year 2000 constant dollars).</p>		
<p>When required by the contract, the cost and schedule control system used by the contractor in planning and controlling the performance of the contract must meet the guidelines specified in the American National Standards Institute (ANSI)/Electronic Industries Alliance (EIA) EVMS standard (ANSI/EIA-748-1998) (reproduced in Section 2 of the Earned Value Management Implementation Guide (DCAAP7641.47)). Although Cost Performance Reports (CPRs) are usually required by contracts that are subject to full compliance with EVMS guidelines, DoD reporting requirements, such as the CPRs, Cost/Schedule Status Reports (C/SSRs), Contract Funds Status Reports (CFSRs), and Contractor Cost Data Reports (CCDRs), are specified separately in DD Form 1423,</p>
