Corruption in the Public Sector Krishna K. Tummala, 2021-03-08 This edited collection examines corruption in the public sector assessing case studies from across the world to provide an international perspective on this global issue Providing a broad overview of public sector corruption including local and national perspectives this volume will appeal to scholars of public policy and corruption worldwide [The African National Congress and the Regeneration of Political Power](#) Susan Booysen, 2011-11-11 The African National Congress is light years beyond the liberation movement of old It remains a juggernaut but its control and dominance are no longer watertight The ANC lives the contradictions of weaknesses cracks and factions while retaining its colossal status As a party movement it draws on its liberation credentials and extracts immense power from its deep anchorage in South Africa s people It is immersed in electoral politics that marks the state of its overwhelming power cyclically As government the ANC is the object of protest but not protest designed to bring the ruling party to its knees The ANC is in command of the state yet fails to definitively counter the deficits that make South Africa s democracy seem so diluted Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not pass through the eye of the needle The ANC and the Regeneration of Political Power unpacks these contradictions It focuses on four faces of the ANC s political power the organisation the people political parties and elections and policy and government and explores how the ANC has acted since 1994 to continuously regenerate its power By 2011 12 the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties This book presents insights into how South African politics in many ways synonymous with the politics of the ANC is likely to unfold in years and possibly decades to come **Who's Who of Southern Africa, 1996-97** S. International Christian Literature Documentation Project Douglas W. Geyer, 1993 **Washington Representatives**, 1994 **Tinderbox** Craig Timberg, Daniel Halperin, 2012-03-01 In this groundbreaking narrative longtime Washington Post reporter Craig Timberg and award winning AIDS researcher Daniel Halperin tell the surprising story of how Western colonial powers unwittingly sparked the AIDS epidemic and then fanned its rise Drawing on remarkable new science Tinderbox overturns the conventional wisdom on the origins of this deadly pandemic and the best ways to fight it today Recent genetic studies have traced the birth of HIV to the forbidding equatorial forests of Cameroon where chimpanzees carried the virus for millennia without causing a major outbreak in humans During the Scramble for Africa colonial companies blazed new routes through the jungle in search of rubber and other riches sending African porters into remote regions rarely traveled before It was here that humans first contracted the strain of HIV that would eventually cause 99 percent of AIDS deaths around the world Western powers were key actors in turning a localized outbreak into a sprawling epidemic as bustling new trade routes modern colonial cities and the rise of prostitution sped the virus across Africa Christian missionaries campaigned to suppress polygamy but left in its place fractured sexual cultures that proved uncommonly vulnerable to HIV Equally devastating was the gradual loss of the African ritual of male circumcision which recent studies have shown offers significant protection against infection Timberg and Halperin argue that the same Western hubris that marked the colonial era has hamstrung the effort to fight HIV From the United Nations AIDS program to the Bush administration's historic relief campaign global health officials have favored well meaning Western approaches abstinence campaigns condom promotion HIV testing that have proven ineffective in slowing the epidemic in Africa Meanwhile they have overlooked homegrown African initiatives aimed squarely at the behaviors spreading the virus In a riveting narrative that stretches from colonial Leopoldville to 1980s San Francisco to South Africa today Tinderbox reveals how human hands
