monitored from the perinatal period through early adulthood      Living Inside Prison Walls Victoria R. DeRosia,1998-12-09  
Are advantaged offenders defenseless against the harshness of prison life Based upon a qualitative study of the prison  
adjustment of advantaged offenders those who prior to prison possessed college degrees and held high status occupations  
with commensurately high incomes this book challenges the special sensitivity hypothesis and concludes that these offenders  
adjust well to incarceration The author compared a group of advantaged offenders to a similar group of nonadvantaged  
offenders both drawn from New York State prisons and discovered that the advantaged offenders exhibited little if any  
engagement in institutional misconduct They also adopted effective coping strategies DeRosia presents a thematic analysis of  
in depth focused interviews with both subsamples as well as vignettes based upon those interviews Her findings reveal that  
advantaged offenders hold a perspective on doing time including prescriptions for avoiding trouble and make conscious  
efforts to avoid trouble by using time beneficially This study contains the most current statistics available on corrections in  
the U S including its organization the overcrowding crisis and prisoner profiles The nature of life in prison and prior research  
on adjustment are also examined      **Handling Intellectual Property Issues in Business Transactions** ,2002
