Dear Mrs Larue Study Guide:

Big Ideas for Little Books Shevonne Elliott, Dawn LaFleur, 2011-09 The secondary ELA classroom is an amazingly important place. It is where students transition from learning to read to reading to learn and they need a tremendous amount of guidance to make that leap. In *Big Ideas for Little Books*, authors Shevonne Elliott and Dawn LaFleur present opportunities to help teachers tap into secondary students' childhoods and carry the excitement of story time into more complex concepts. Detailed and engaging, these forty-five lessons use the simple text of children's books to introduce and reinforce the skills required in the secondary ELA classroom. The easy-to-follow lesson plans require little prep work and employ creative methods for helping students learn about concepts such as argumentation, characterization, dialect, imagery, irony, parody, parallelism, and more. Ideas for extension accompany every lesson and provide opportunities for teachers to differentiate instruction and meet the needs of all learners. *Big Ideas for Little Books* is an ideal resource for teachers who want to engage their students' imaginations while teaching literary analysis and cohesive writing skills. It offers a fresh approach to energizing students and generating excitement about learning.

Personalized Reading Nancy Hobbs, Kristen Sacco, Myra R. Oleynik, 2010-11-15 This guidebook provides teachers and librarians with methods for collaboratively teaching elementary students to select books they will enjoy and which will further their personal growth and information literacy. Motivating young students to read is instrumental for the development of strong information literacy and communication skills, as well as for building a lifelong habit of seeking information and enjoyment through written materials. The authors of *Personalized Reading: It's a Piece of PIE* are three highly experienced teachers, one of whom is a school librarian. This text describes the steps of the PIE program in detail, including chapters on selecting a book, reading it, writing about it, and extending beyond that title. Utilizing the PIE program will teach students to make selections at an appropriate reading level, expand from choosing titles in the same genre or from the same author, and recognize and abandon a book of low interest to them. Within each chapter are explanations of the theories behind each step and practical ideas that teachers and librarians can implement collaboratively in the classroom and library.
