Death The Last God A Modern Of The Dead:

Death, the Last God Anne Geraghty, 2014-11-28 Anne Geraghty was a clinical psychologist and psychotherapist when her son Tim Guest author of *My Life in Orange* died suddenly Her old life ended She went on a search for her lost son Where was he What was he Did he live on in some other realm Or had he fallen into the darkness of oblivion Her search for Tim became an exploration into the nature of death itself We die as we have lived Our lives are not like those of a C12th Tibetan a C15th Cardinal or a Zen monk we cannot therefore simply turn to old maps and myths of what happens when we die We need a new narrative of death that embraces our modern understandings of our humanity and the workings of the universe This book is the story of a grieving mother looking for her dead son an investigation into death in our modern world and an exploration of our struggles to live well in the ever present shadow of death It is not a book with answers it is an invitation to look at death differently This book offers fresh and original ideas about death and dying And it will radically change your understanding of what death is

Heidegger and Kabbalah Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R Wolfson expands connections between Heidegger's thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger's involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson's entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions

Ritual, Belief and the Dead in Early Modern Britain and Ireland Sarah Tarlow, 2010-11-22 Drawing on archaeological historical theological scientific and folkloric sources Sarah Tarlow's interdisciplinary study examines belief as it relates to the dead body in early modern Britain and Ireland From the theological discussion of bodily resurrection to the folkloric use of body parts as remedies and from the judicial punishment of the corpse to the ceremonial interment of the social elite this book discusses how seemingly incompatible beliefs about the dead body existed in parallel through this tumultuous period This study which is the first to incorporate archaeological evidence of early modern death and burial from across Britain and Ireland addresses new questions about the materiality of death what the dead body means and how its physical substance could be attributed with sentience and even agency It provides a sophisticated original interpretive framework for the growing quantities of archaeological and historical evidence about mortuary beliefs and practices in early modernity
