Brave New World Questions And Answers Chapter 12:

Ethics for a Brave New World, Second Edition (Updated and Expanded) John S. Feinberg, Paul D.

Feinberg, 2010-11-04 Aldous Huxley's 1932 book *Brave New World* foresees a world in which technological advances have obliterated morality and freedom. John Feinberg and Paul Feinberg in the first edition of *Ethics for a Brave New World* noted how Huxley landed frighteningly close to the truth. Their book responded to ethical crises such as abortion, euthanasia, capital punishment, and genetic engineering by looking to Scripture for principles to guide us through the moral quagmires of our time. Now dramatically updated and expanded, this edition of *Ethics for a Brave New World* seeks to maintain the relevance, rigorous scholarship, and biblical faithfulness of the first edition. While many of the topics covered in the book remain the same, John Feinberg has revised each chapter to keep it current with contemporary trends and to respond to the most recent scholarship. There is a new chapter on stem cell research and greatly expanded material on issues such as homosexuality and genetic engineering. This important resource will be a valuable guide for students and those seeking answers to ethical dilemmas.

The Media Creates Us in Its Image and Other Essays on Technology and Culture Richard

Stivers, 2020-03-31 *The Media Creates Us in Its Image and Other Essays on Technology and Culture* proposes that modern technology seriously influences every aspect of culture and personality. Technology shapes our beliefs and values and even how we think of ourselves. It affects religion, morality, education, language, communication, and sexual identity. Every institution, every organization is brought under its purview. This book attempts to awaken the reader to the destructive side of modern technology that exists side by side with its constructive side. What modern technology is destroying, however, is the very meaning of being human. The essay *The Media Creates Us in Its Image* makes this case most dramatically. The book asks the reader the following question: Is what you have gained from the use of modern technology more important than what you have lost? How do we once again bring technology under our control in the face of its inexorable progress?
