

SOCRATIC SEMINAR QUESTIONS: *BRAVE NEW WORLD*

Type or hand-write on notebook paper well considered and detailed answers to the following questions:

1. Of all the methods and devices the World State uses to control its citizens, which do you find the most morally objectionable? Or do you? Either way, explain.
2. Why do the World Controllers include sex at all as a part of daily life? Why not just eliminate everyone's sex drives altogether?
3. Go back and look at page 258 in Chapter 18. As the people who have come to lighthouse are worked into an increasing frenzy over "the Savage's" behavior, John begins to whip himself while shouting "Kill it, kill it!" What do you think John is referring to when he says this? Explain why.
4. When Lenina comes to see John at the lighthouse, she is described as follows: "Her blue eyes seemed to grow larger, brighter; and suddenly two tears rolled down her cheeks. Inaudibly, she spoke again; then, with a quick, impassioned gesture stretched out her arms towards the Savage, stepped forward" (257). This is clearly a different Lenina than the one initially introduced to the reader. So, what changed? What do you believe is behind Lenina's show of emotion?
5. Soma is the World State's most powerful tool to subdue and control its citizens. Do you think the World State (or something like it) could ever exist without soma? Explain.
6. After Chapter 11, the narrator never again refers to John by his name, instead only calling him "the Savage." Why do you think Huxley does this? Is there some significance to this choice?
7. Though Huxley's imagined World State seems less human in the way we are accustomed to living, explain the positive aspects of his society. What aspects would you particularly like and why?
8. Everyone makes a big deal out of the fact that soma doesn't have any nasty after-effects of say, alcohol (hangovers, guilt, shame, pregnancy). If this is true, why do we find its use morally wrong? Actually, do you find it morally wrong? Why or why not?
9. What is the difference between natural instinct and the "instinctual" feelings that the citizens of the World State have been conditioned to feel? Is there a difference at all?
