Considering Pragma-Dialectics Peter Houtlosser, Agnes van Rees, 2014-04-04 *Considering Pragma Dialectics* honors the monumental contributions of one of the foremost international figures in current argumentation scholarship Frans van Eemeren. This tribute serves to highlight the varied approaches to the study of argumentation and is destined to inspire researchers to advance scholarship in the field far into the future. Replete with contributions from highly esteemed academics in argumentation study, chapters in this volume address such topics as Pragma dialectic versus epistemic theories of arguing and arguments, Pragma dialectics and self advocacy in physician patient interactions, The pragma dialectical analysis of the ad hominem family, Rhetoric dialectic and the functions of argument and The semantics of reasonableness. As an exceptional volume and a fitting tribute, this work will be of interest to all argumentation scholars considering the astute insights and scholarly legacy of Frans van Eemeren. Keeping in Touch With Pragma-Dialectics Eveline T. Feteris, Bart Garssen, A. Francisca Snoeck

In this volume, comparisons between the pragma dialectical approach and other approaches are made, aspects of strategic maneuvering such as the use of presentational techniques, adaptation to the audience and the selection of topics are dealt with, and the influence of specific institutional contexts such as politics, medicine and internet forums on strategic maneuvering are discussed. *Pattern Recognition and Artificial Intelligence* Fausto Pedro García Márquez, Alaa Ali

Dialogue and Rhetoric Edda Weigand, 2008-10-09 The volume deals with the relationship between dialogue and rhetoric The actual state of the art in dialogue analysis is characterized by a tendency to overcome the distinction between competence and performance and to combine components from both sides of the dichotomy in a way which includes rules as well as inferences The same is true of rhetoric the guidelines proposed here no longer state that rationality and persuasion are mutually exclusive but suggest that they interact in what might be called the mixed game The concept of a dialogic rhetoric thus poses the question of how to integrate the different voices Part I of the volume assembles several rhetorical paradigms which are applied to real life performance Part II on rhetoric in the mixed game contains a selection of papers which illustrate the interaction of various components The Round Table discussion in Part III brings proponents of different paradigms face to face with each other and shows how they justify their own positions and present arguments against rival paradigms

Inference in Argumentation Eddo Rigotti,Sara Greco,2018-12-10 This book investigates the role of inference in argumentation considering how arguments support standpoints on the basis of different loci The authors propose and illustrate a model for the analysis of the standpoint argument connection called Argumentum Model of Topics AMT A prominent feature of the AMT is that it distinguishes within each and every single argumentation between an inferential procedural component on which the reasoning process is based and a material contextual component which anchors the argument in the interlocutors cultural and factual common ground The AMT explains how these components differ and how they are intertwined within each single argument This model is introduced in Part II of the book following a careful reconstruction of the enormously rich tradition of studies on inference in argumentation from the antiquity to contemporary authors without neglecting medieval and post medieval contributions The AMT is a contemporary model grounded in a dialogue with such tradition whose crucial aspects are illuminated in this book Argumentation and Health Sara Rubinelli,A.
