**Contemplation and Transformation** Thomas Keating, **An Ocean of Light** Martin Laird, 2018-11-07 For people drawn to a life of contemplation the dawning of luminous awareness in a mind full of clutter is deeply liberating In the third of his best selling books on Christian contemplative life Martin Laird turns his attention to those who are well settled in their contemplative practice An Ocean of Light speaks both to those just entering the contemplative path and to those with a maturing practice of contemplation Gradually the practice of contemplation lifts the soul freeing it from the blockages that introduce confusion into our identity and thus confusion about the mystery we call God In the course of a lifetime of inner silencing the flower of awareness emerges a living realization that we have never been separate from God or from the rest of humanity while we each fully become what each of us is created to be In contemplation we become so silent before God that the before drops away Those whose lives have led them deeply into the silent land realize this but not in the way that we realize that the square root of 144 is 12 Laird draws from a wide and diverse range of writers from St Augustine Evagrius Ponticus and St Teresa of Avila to David Foster Wallace Flannery O'Connor Virginia Woolf and Franz Wright to ground his insight in an ancient practice and give it a voice in contemporary language With his characteristic lyricism and gentleness Laird guides readers through new challenges of contemplative life such as making ourselves the focus of our own contemplative project dealing with old pain transforming the isolation of loneliness and depression into a liberating solidarity with all who suffer and the danger of using a spiritual practice as a strategy to acquire and control *Spirituality, Contemplation, and Transformation* Thomas Keating, 2007-11 In Spirituality Contemplation and Transformation some of the

**Aah! The Light. From Contemplation to Transformation** Shakuntala Hawoldar, 2015 If you are looking for an explosive book by some kind of nerd delving into abstract symbols or a spiritual pundit floating in a metaphysical haze then this book is not meant for you This is simply an extraordinary book by an ordinary woman who has enjoyed and suffered the dual roller coaster life of her daily grind She now offers us her life experiences with a unique pair of lenses to see a different world orbiting in a parallel universe This universe of Sat chit anand Truth consciousness joy bliss or oneness has been revealed time and again by the masters and gurus who have escaped the snares of Maya or world as

illusion The author however reminds us that the dual world where we are all born has sticky glue as its mysterious matrix This matrix blinds us with our complex desires and tendencies which has taken us with our automated robotic mind bodies onto a push button escalator which has gone out of control This hypnotic Maya which emasculates our very thinking and distorts our brains makes us believe that what is not IS Grappling with and perceiving what IS itself involves a jump in consciousness to a higher vantage point which is no easy feat Self transformation which is the essence of this book is a break through to a new dimension In this new approach we cannot have one set of ideas fighting with another set for supremacy because all of it constitutes conditioning and more conditioning The real however is hidden in our body mind layers and it will reveal its hidden splendour only when we break away from our robotic selves or egos On the other hand if you are firmly ensconced in the invisible and hypnotic nets of Samara or Maya then don't bother with the new horizons which welcomes you as the land of light and love Drop the book where you found it since self transformation is no cake walk Mervyn Sookun
