Death Blow To Jim Crow:

Death Blow to Jim Crow Erik S. Gellman, 2012-02-01 During the Great Depression black intellectuals labor organizers and artists formed the National Negro Congress NNC to demand a second emancipation in America Over the next decade the NNC and its offshoot the Southern Negro Youth Congress sought to coordinate and catalyze local antiracist activism into a national movement to undermine the Jim Crow system of racial and economic exploitation In this pioneering study Erik S Gellman shows how the NNC agitated for the first class citizenship of African Americans and all members of the working class establishing civil rights as necessary for reinvigorating American democracy Much more than just a precursor to the 1960s civil rights movement this activism created the most militant interracial freedom movement since Reconstruction one that sought to empower the American labor movement to make demands on industrialists white supremacists and the state as never before By focusing on the complex alliances between unions civic groups and the Communist Party in five geographic regions Gellman explains how the NNC and its allies developed and implemented creative grassroots strategies to weaken Jim Crow if not deal it the death blow they sought

Death Blow to Jim Crow Erik S. Gellman, 2006 **Death Blow to Jim Crow**, 1946* Brochure including draft program partial list of sponsors and registration form [Freedom Train](#) Cedric De Leon, 2025-04-15 Revealing the central role of Black activists in spurring interracial solidarity in the US labor movement Most accounts of interracial solidarity focus on white union activists In *Freedom Train* Cedric de Leon a former organizer and elected leader in the US labor movement argues that we can't comprehend the history of workers triumphs in the United States without investigating the role of Black liberation This book shows that from the early twentieth century to the years immediately following the March on Washington and beyond independent Black labor organizations have pushed the white labor movement toward a fierce and effective interracial solidarity Drawing on the minutes correspondence and speeches of Black labor activists and organizations from 1917 to 1968 de Leon reveals that Black people have been the most ardent and consistent proponents of racial inclusion leadership representation and programs linking economic and racial justice He also demonstrates how conflict and consensus among Black labor groups fueled the fight for solidarity as different factions split and consolidated to form successive and sometimes competing Black labor organizations *Freedom Train* centers the contributions of Black people to the multiracial unions we have today and demonstrates that internal conflict can be a source of strategic innovation and social movement success

[The March on Washington](#) William P. Jones, 2013-07-22 Vivid and moving Tells a story all but lost in most civil rights histories Bill Marvel Dallas Morning News It was the final speech of a long day August 28 1963 when hundreds of thousands gathered on the Mall for the March on Washington for Jobs and Freedom In a resounding cadence Martin Luther King Jr lifted the crowd when he told of his dream that all Americans would join together to realize the founding ideal of equality The power of the speech created an enduring symbol of the march and the larger civil rights movement King's speech still inspires us fifty years later but its very power has also narrowed our

understanding of the march In this insightful history William P Jones restores the march to its full significance The opening speech of the day was delivered by the leader of the march the great trade unionist A Philip Randolph who first called for a march on Washington in 1941 to press for equal opportunity in employment and the armed forces To the crowd that stretched more than a mile before him Randolph called for an end to segregation and a living wage for every American Equal access to accommodations and services would mean little to people white and black who could not afford them Randolph s egalitarian vision of economic and social citizenship is the strong thread running through the full history of the March on Washington Movement It was a movement of sustained grassroots organizing linked locally to women s groups unions and churches across the country Jones s fresh compelling history delivers a new understanding of this emblematic event and the broader civil rights movement it propelled
