Death Dying Guide Practical:

A Practical Guide to Death and Dying John White, 2004-01-01 Many people are so afraid of death that they don't want to think about it, hear about it or plan for it. But death must be understood and prepared for; otherwise we will live in fear and burden our loved ones with unanswered questions and unnecessary responsibilities. In *A Practical Guide to Death and Dying*, consciousness researcher John White provides a thorough, compassionate look at death and explores the biology, psychology, and metaphysics of one's own demise. In addition to recounting the personal stories of those who have developed a healthy attitude toward death, White also offers a program for personal action. He provides information about the evidence of life after death, how to eliminate fears about death, how to plan for it, practical exercises for learning how to die, and where to find more help. *A Practical Guide to Death and Dying* will benefit readers who are ill and those who are healthy, readers who care for the dying and readers who are curious about what lies ahead. *A Practical Guide to Death & Dying* John White, 1988-01-01

Death, Loss, and Grief in Literature for Youth Alice Crosetto, Rajinder Garcha, 2012-11-21 All human beings encounter loss and death as well as the grief associated with these experiences. It is therefore important for children and adolescents to understand that such events are inevitable and to learn how to accept loss and cope with their emotions. In order to help children through their pain, parents and caregivers need access to the proper resources that will help them discuss these topics, and educational professionals need reliable resources for creating courses of study on these subjects. In *Death, Loss, and Grief in Literature for Youth*, Alice Crosetto and Rajinder Garcha identify hundreds of resources that will help educators, professionals, parents, siblings, guardians, and students learn about coping with the loss of a loved one and the grief process. These resources include books, Internet sites, and media titles aimed at students and those helping them through the grieving process. Chapters in this volume include fiction and non-fiction titles about the loss of a family member, a friend, and a pet, as well as general reference resources, curricular resources, and websites. Annotations provide complete bibliographical descriptions of the entries, and each entry is identified with the grade levels for which it is best suited. Reviews from recognized publications are also included wherever possible. Anyone interested in locating helpful resources regarding death and grieving will find much of value in this essential tool. **Death Attitudes and the Older Adult** Adrian
