Discovering the Life Span Robert Stephen Feldman, 2021. *Discovering the Life Span*, Fifth Edition, provides a broad overview of the field of human development. It covers the entire range of the human life from the moment of conception through death. The text furnishes a broad, comprehensive introduction to the field, covering basic theories and research findings as well as highlighting current applications outside the laboratory. It covers the life span chronologically, encompassing the prenatal period, infancy and toddlerhood, the preschool years, middle childhood, adolescence, early and middle adulthood, and late adulthood. In a unique departure from traditional lifespan development texts, each chapter integrates the physical, cognitive, and social and personality domains within each chronological period. The book is designed to be user-friendly. Written in a direct, conversational voice, it replicates as much as possible a dialogue between author and student. The text is meant to be understood and mastered on its own by students of every level of interest and motivation. To that end, it includes a variety of pedagogical features that promote mastery of the material and encourage critical thinking.
