General Principles of European Private International Law Stefan Leible,2016-02-22 European private international law as it stands in the Rome I II and III Regulations and the recent Succession Regulation presents manifold risks of diverging judgments despite seemingly harmonised conflict of law rules There is now a real danger in light of the rapid increase in the number of legal instruments of the European Union on conflict of laws that European private international law will become incoherent This collection of essays by twenty noted scholars in the field sheds clear light on the pivotal issues of whether a set of overarching rules a general part is required whether an EU regulation is the adequate legal instrument for such a purpose which general questions such an instrument should address and what solutions such an instrument should provide In analysing the possible emergence of general principles in European private international law over the past years the contributors discuss such issues and factors as the following the relationship between conflict of laws and recognition the room for party autonomy the concept of habitual residence adaptation when interplay between different laws leads to deadlock public policy exceptions the desirability of a general escape clause the classic topics of characterisation incidental question and renvoi and right to appeal in case of errors in the application of foreign law Practitioners dealing with these notoriously difficult cases will welcome this in depth treatment of the issues as will interested policymakers throughout the EU Member States and at the EU level itself Scholars will discover an incomparable comparative analysis leading to expert recommendations in European private international law opening the way to an effective European framework in this area

History in the Humanities and Social Sciences Richard Bourke,Quentin Skinner,2022-12-22 This interdisciplinary volume explores the relationship between history and a range of disciplines in the humanities and social sciences economics political science political theory international relations sociology philosophy law literature and anthropology The relevance of historical approaches within these disciplines has shifted over the centuries Many of them like law and economics originally depended on self consciously historical procedures These included the marshalling of evidence from past experience philological techniques and source criticism Between the late nineteenth and the middle of the twentieth century the influence of new methods of research many indebted to models favoured by the natural sciences such as statistical analytical or empirical approaches secured an expanding intellectual authority while the hegemony of historical methods declined in relative terms In the aftermath of this change the essays collected in *History in the Humanities and Social Sciences* reflect from a variety of angles on the relevance of historical concerns to representative disciplines as they are configured today
