1. The first step in the process is to identify the problem or goal. This involves understanding the current situation and what needs to be achieved.

2. Once the problem is identified, the next step is to gather information. This can be done through research, interviews, or data analysis.

3. After gathering information, the next step is to analyze the data. This involves looking for patterns, trends, and insights that can help inform the decision-making process.

4. Once the data has been analyzed, the next step is to develop a plan. This involves determining the best course of action to achieve the goal.

5. The final step in the process is to implement the plan. This involves putting the plan into action and monitoring progress.

[illegible]

Small-group members will discuss how groups can be used to enhance learning in the classroom. They will discuss the advantages and disadvantages of using groups and how to use groups effectively. They will also discuss the importance of group norms and how to establish them.
