Sound democratic decisions rely on a citizenry with at least a partial mastery of the rules and workings of democratic government American high schools where students learn the basics of citizenship thus ought to play a critical role in the success of democracy Yet studies examining the impact of high school government and civics courses on political knowledge over the past quarter century have generally shown that these courses have little or no effect In this important book Richard G Niemi and Jane Junn take a fresh look at what America s high school seniors know about government and politics and how they learn it The authors argue convincingly that secondary school civics courses do indeed enhance students civic knowledge This book is based on the most extensive assessment to date of civic knowledge among American youth the 1988 National Assessment of Education Progress NAEP Civics Assessment The authors develop and test a theoretical model to explain the cognitive process by which students learn about politics and they conclude by suggesting specific changes in the style and emphasis of civics teaching **Teaching Civic Literacy Projects** Shira Eve Epstein, 2014 This practical resource shows teachers how to enact robust forms of civic education in today s schools Both instructive and thought provoking it will inspire teachers to craft curricula addressing a wide range of genuine civic problems such as those related to racial discrimination environmental damage and community health Dividing civic literacy

projects into three key phases problem identification problem exploration and action the author provides concrete examples from upper elementary middle and high school classrooms to illustrate and analyze how each phase can unfold The projects ultimately provide opportunities for youth to participate in civic life while they develop essential literacy skills associated with reading writing and speaking The final chapter outlines a curriculum design process that will result in coherent and meaningful civic literacy projects driven by clear goals It includes practical tools such as a sample unit timeline an assessment chart and student worksheets that can be modified for immediate use Shira s work offers us a reflection of democratic practice in the classroom through the teaching of critical reading persuasive writing and deliberation In *Teaching Civic Literacy Projects* Shira invites us all to contemplate the depth of the democratic project and the possibility that schools can help uphold our democratic ideals From the Foreword by Celia Oyler professor Teachers College Columbia University This book is a gem Shira Epstein has provided invaluable assistance for teachers interested in engaging their students in the political and civic spheres in ways that build crucial literacy skills The combination of a powerful framework and rich and detailed case studies provides readers with a clear vision and helpful specific guidance for creating robust civic learning experiences for young people Diana Hess senior vice president Spencer Foundation and professor University of Wisconsin Madison Excellent civic education means encouraging young people to identify and define problems and take action That is challenging in our era of political polarization and narrow definitions of education Shira Eve Epstein provides the best practical guide for teachers who want their students to confront social problems Peter Levine Lincoln Filene Professor of Citizenship Public Affairs Tufts University **Foundations of Democracy** Center for Civic Education, Calabasas, CA.,1993 Introduces students to the four ideas which are basic to our constitutional form of government authority privacy responsibility and justice No Reluctant Citizens Jeremiah Clabough,Timothy Lintner,2018-07-11 This book helps social studies teachers reinforce civic education through hands on participatory activities It covers topics like civic literacy human rights service learning and controversial issues providing K 12 students with the tools to become civically engaged *A Comprehensive Guide to Getting Involved in Civics* The Institute for Youth in Policy: Education Department ,2024-04-20 Discourse with Direction This civic engagement handbook provides students with a comprehensive guide to civics current events and public policy We aim to empower students to become future leaders taking our country s political state in a new direction This handbook covers a variety of topics such as how to start a passion project in the field of civics how to have conversations on difficult topics and how to lobby legislators to bring critical issues to the forefront We hope that students will become more interested in government after reading this book Written by The Education Department at The Institute for Youth in Policy we take a by students for students approach to civics education Currently we re working on an eight unit civics education curriculum spanning topics ranging from climate change to social welfare policy we presented this curriculum at the 2023 National Advanced Placement Conference hosted by the College Board in Seattle Washington We aim
