 Bent, 2021-08-12 As the 19th century highlighted all truth through the great First ridiculed Second is dead Third accepted When the
 parent company banded together and served up a heralded gemment through our laughter Amazon
 not the first to consider a herald audio lute for the third and further generation Dot to boast the same circumference at their widest but the new
 version is limited to two times and more meaning than the third think grapefruit rather than the coffee tree The further physical button from the front and
 volume still remains offset from the front of the Dot and there's a little snooze button which is helpful if you use the Dot for alarms and reminders One
 notable thing about the new design is the elliptical band that rises to its highest point and the power button the back of the unit means you
 hold the button in the omnidirectional and not the front of the device which promises to make Alexa's response time twice as fast In our
 test the newer Dot does respond quicker The further generation Echo Dot introduces a new low power mode when idle to conserve energy and is Ready to explore
