## **Auto Repair Certificate Programs:**

**Your Future as an Auto Mechanic** Rachel Given-Wilson, Tamra B. Orr, 2019-07-15 Americans rely on auto mechanics to repair and maintain the vehicles they drive every day The work of an auto mechanic has changed over the years what was once seen as a dirty job is now often done on laptops in an office Featuring profiles of real life auto mechanics this accessible guidebook provides readers with comprehensive information about training and apprenticeships as well as an overview of areas of specialization within the auto industry Readers will also learn about the affect of advancements in auto technology and the future of mechanics in the era of self driving cars

**Getting a Job in Automotive Care and Service** Mindy Mozer, 2013-07-15 Many people who are car enthusiasts and are mechanically inclined dream of a career in automotive care and service This work is essential and incredibly valuable since so few know how to do it As the nation has again begun to embrace the opportunities offered by trade schools and vocational education the time is again ripe to encourage mechanically skilled teens to pursue this career path This guide describes the wide range of jobs and specializations in the field including small and large engines diesel auto body repair glass repair and auto service managers It also describes the skills education and training necessary including the new computer skills required for increasingly high tech diagnostic tools and cars and their operating systems Helpful tips regarding job search and interview strategies customer service and lifelong learning and skills training are shared This career guide also conforms to the career preparedness standards of the Common Core Curriculum regarding the reading of informational text

Court of Appeal (1st Appellate District). Records and Briefs** California (State)., Received document entitled EXHIBITS A LL      **Black Belt** ,2000-04 The oldest and most respected martial arts title in the industry this popular monthly magazine addresses the needs of martial artists of all levels by providing them with information about every style of self defense in the world including techniques and strategies In addition Black Belt produces and markets over 75 martial arts oriented books and videos including many about the works of Bruce Lee the best known marital arts figure in the world      *America's Top 300 Jobs* U S Dept of Labor,U. S. Department of Labor Staff,2000 Based on extensive market research from the U S Department of Labor this classic job information resource offers easy to read descriptions regarding job skills education requirements advancement opportunities and salary data Also contains a special section on growth projections for the 500 largest jobs through the year 2005      Kansas Farmer ,1914      Paper ,1924      **Motor Age** ,1914      *Career as an Automotive Technician* Institute for Career Research,2020-04-15 IF YOU LOVE CARS LIKE WORKING with your hands and have a knack for solving problems becoming an automotive technician or mechanic is a great career option Getting started requires less formal education than most other jobs yet it has the potential to become a rewarding career Auto technicians and mechanics keep vehicles on the road by providing routine maintenance and doing repairs to correct problems when they occur On any given day they could change oil and rotate tires install alarms and sat navs use diagnostic equipment to identify a faulty component replace worn brakes adjust timing rebuild a transmission and road test repaired vehicles Auto technicians and mechanics both have the mechanical ability to work on vehicles There is one key difference however and that is their technical expertise Vehicles today are increasingly complex with computers and electronics integrated into nearly every system Auto technicians are specifically trained to work with computers and other technical aspects of vehicles This training is important since computerized diagnostics tools have become standard equipment Once training is complete auto technicians are certified and earn the designation of technician While mechanics do not have the same formal technical training as technicians there is often little difference in job duties There are several

ways to learn the necessary skills for this work from an informal apprenticeship to earning an associate degree at a community college Programs offered by vocational schools are the most popular These typically last between six months and a year and offer a certificate upon completion Though relatively short these programs are intense and packed with a great deal of knowledge and hands on experience Regardless of the type and length of formal training however on the job training is usually needed after graduation to qualify for the best jobs Employers also prefer candidates with certification from the National Institute for Automotive Excellence Certification is available in a number of areas each focused on a specific automotive system such as automatic transmissions engine repair or heating and air conditioning Those who achieve certification in core areas can earn Master Technician status Trained and skilled auto technicians and mechanics enjoy a high level of job security This has become a high tech career that is always in demand and cannot be outsourced overseas The job outlook is very good because of a shortage of qualified candidates and the ever growing love affair between Americans and their cars Large car dealerships are always looking for good workers and that is where the largest percentage of jobs exists There are also many jobs at independent repair shops that do general work on all kinds of vehicles and franchise services that are dedicated to single systems like brakes or transmissions There are plenty of other opportunities that are less obvious Delivery services municipal governments public transportation departments taxi companies car and scooter rentals and police departments all have fleets of vehicles that need regular service Plus there is always the opportunity for self employment which is common in this field Once in the field you will find success more quickly if you have strong problem solving skills pay attention to details have excellent customer service skills can work without supervision and are physically fit Even if you have no experience you can start searching for a job today where you can learn the skills in a hands on setting
