Teacher Education at the Edge Tonya Huber, James G. O'Meara, 2019-12-01 International Education Inquiries is a book series dedicated to realizing the global vision of Education 2030. This vision involves ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all. The founding editors seek to provide a forum for the diverse voices of scholars and practitioners from across the globe asking questions about transforming the vision of Education 2030 into a reality. Published chapters will reflect a variety of formats free of methodological restrictions involving disciplinary as well as interdisciplinary inquiries. Education 2030 topics of interest include but are not limited to: Improving access to quality early childhood development care and pre-primary education; Ensuring equal access for all women and men to affordable and quality education; Increasing the number of youth and adults who have skills relevant for sustainable living and livelihoods; Ensuring equal access for the vulnerable including persons with disabilities, indigenous peoples and children in vulnerable situations; Achieving levels of literacy and numeracy required to engage in communities and employment; Acquiring the knowledge and skills needed to promote sustainable development including Human right, Gender equality, Promotion of a culture of peace and non-violence, Global citizenship education, The appreciation of cultural diversity and of culture's contributions to sustainable development; Providing safe, non-violent, inclusive and effective learning environments for all; Recruiting, preparing, supporting and retaining quality teachers.

The Impacts of Language and Literacy Policy on Teaching Practices in Ghana Philomena Osseo-Asare, 2021-03-15 This text critically examines changes in Ghanaian language and literacy policy following independence in 1957 to consider its impacts on early literacy teaching. By adopting a postcolonial theoretical perspective, the text interrogates the logic behind policy changes which have prioritised English local language or biliteracy. It draws on data from interviews with teachers and researcher observation to demonstrate how policies have influenced teaching and learning. Dr Osseo-Asare's findings inform the development of a conceptual framework which highlights the socio-cultural factors that impact the literacy and biliteracy of young children in Ghana, offering solutions to help teachers combat the challenges of frequent policy changes. This timely monograph will prove to be an essential resource not only for researchers working on education policies, teacher education and English language learning in postcolonial Ghana but also for those looking to identify the thematic and methodological nuances of studying literacy and education in postcolonial contexts.
