MODULE – 1 INTRODUCTION TO ENERGY SCIENCE

1 / 18

Introduction to energy systems and resources: - Energy has by now become an inseparable partner of human beings, who use it at any time every day in all their activities. To ensure the possibility of benefiting from that resource in a simple, stable and constant way, mankind had to conduct studies and research for a long time and only during the last decades of the 19th century did many nations, but not all, succeed in developing “energy systems” ensuring the quality and quantity of energy necessary for development.

The term “energy systems” usually describes the set of production, transformation,
