Amadi-Echendu, Kerry Brown, Roger Willett, Joseph Mathew, 2010-11-02 Definitions Concepts and Scope of Engineering Asset Management the first volume in this new review series seeks to minimise ambiguities in the subject matter The ongoing effort to develop guidelines is shaping the future towards the creation of a body of knowledge for the management of engineered physical assets Increasingly industry practitioners are looking for strategies and tactics that can be applied to enhance the value creating capacities of new and installed asset systems The new knowledge based economy paradigm provides imperatives to combine various disciplines knowledge areas and skills for effective engineering asset management This volume comprises selected papers from the 1st 2nd and 3rd World Congresses on Engineering Asset Management which were convened under the auspices of ISEAM in collaboration with a number of organisations including CIEAM Australia Asset Management Council Australia BINDT UK and Chinese Academy of Sciences Beijing University of Chemical Technology China Definitions Concepts and Scope of Engineering Asset Management will be of interest to researchers in engineering innovation and technology management as well as to managers planners and policy makers in both industry and government

**Building Economics: Theory and Practice** Rosalie Ruegg, Harold Marshall, 2013-11-11 We no longer build buildings like we used to nor do we pay for them in the same way Buildings today are no longer only shelter but are also life support systems communication terminals data manufacturing centers and much more Buildings are incredibly expensive tools that must be constantly adjusted to function efficiently The economics of building has become as complex as its design When buildings were shelter they lasted longer than their builders The average gothic master mason lived 35 or 40 years Cathedrals took 3 or 4 hundred years to build Cost estimates were verified by great great grandchildren of the original designer Today creative economics has become as important as creative design and creative building The client brings builder contractor architect and facilities manager to account in their life time The cost of building can therefore no longer be left to chance or act of god Solutions are no longer as ingeniously simple as those proposed by a Florentine builder early in the 15th century He proposed to center the dome of S Maria del Fiore on a great mound of earth mixed with pennies When the job was done street urchins would carry away the dirt in their search for the pennies This was a serious suggestion offered by an early construction manager before Brunelleschi solved the problem more sensibly

Time for Bias Christopher Yap S.H., 2019-03-18 This book is about the need and importance of BIAS building inspection assessment and surveillance given the proliferation of buildings and infrastructure throughout the world especially in developed cities where skyscrapers and high rise buildings as well as massive infrastructure have changed entire cityscapes in the last two decades The author aims to convince governments corporations professionals and academics as well as property owners of the need for and importance of BIAS and he hopes that they will take BIAS seriously The author strongly believes that his book will prove its worth in times to come as lives and

properties are saved      Construction Management: Strategies, Practices, and Contemporary Challenges Mohanad Hatem Shadhar, Dr. Zaid A.
