New Budgeting Methods:

Practical Strategies for Applied Budgeting and Fiscal Administration Spencer C. Weiler, Gabriel R.

Serna, 2016-07-18 This book takes an applied approach to budgeting and fiscal administration in P 12 public education. It presents new and aspiring P 12 educational leaders with the fundamental knowledge and skills to supervise, analyze, and implement budgets that make the best and most effective use of limited resources. By exploring the foundational elements of fiscal administration and outlining the process step by step, this text carefully takes leaders through real world examples and includes myriad opportunities for application. Indeed, a major goal of this text is to provide readers with a set of technical skills that can be applied across a range of contexts. Our expectation is that current and future P 12 budget managers and educational leaders will find this text invaluable in their day to day work and that the material presented here will help them engage in fruitful decisions around the allocation of scarce resources.
