We are
learning to
find half

The image shows a hands-on learning station for fractions, specifically focusing on finding half. The station is set up on a tablecloth featuring a pattern of red apples and strawberries. In the center, a black tray holds various colored LEGO bricks (red, blue, green, pink, yellow) arranged in a grid. To the left of the tray is a small black bowl filled with yellow beads. To the right is another similar bowl. Below the tray, a blue LEGO brick is placed on a light blue card. The card displays a simple addition problem: two yellow beads plus two yellow beads equals four yellow beads. To the right of the card, a blue LEGO brick is placed on a light blue card. The card displays a simple subtraction problem: four yellow beads minus two yellow beads equals two yellow beads. In the background, a yellow card with the numbers 1 through 10 is visible. To the right, a pink card with the text 'We are learning to find half' is pinned. Further right, a card with the word 'number' is partially visible. The overall setup is designed to help children understand fractions using tangible objects like LEGO bricks and beads.

Who's Afraid of AAC? Alison Battye, 2017-08-04 Who's Afraid of AAC is a clear and concise guide to Augmentative and Alternative Communication AAC in the UK and will be an essential resource for all Speech and Language Therapists, educators, parents and carers supporting children with non-verbal communication. This book sets out to demystify AAC by demonstrating that you already have the skills necessary to use AAC successfully. Key features include an overview of the different types of AAC, analysis of the best available approaches, tools to give you the context you need to make specific recommendations and choices, thorough sections on different settings including Home, Early Years, Primary, Secondary and Special Schools so that guidance is relevant to individual needs, numerous practical examples, templates and activities to help you implement AAC in all settings, summaries of recent research and hot topics including eye gaze technology, using AAC in exams and internet safety so that you have the most up-to-date guidance at your fingertips. Created by a Speech and Language Therapist who specialises in AAC training for therapists, educators and individuals with communication needs as well as parents and carers, this is the only book of its kind written for a UK audience. [The Trouble with Maths](#) Steve Chinn, 2020-09-22 Now in its fourth edition with updates to reflect developments in our understanding of learning difficulties in maths, this award-winning text provides vital pragmatic insights into the often confusing world of numeracy. By looking at learning difficulties in maths and dyscalculia from several perspectives, for example the vocabulary and language of maths, cognitive style and the demands of individual procedures, this book provides a complete overview of the most frequently occurring problems associated with maths teaching and learning. Drawing on tried and tested methods based on research and Steve Chinn's decades of classroom experience, it provides an authoritative yet accessible one-stop classroom resource. Combining advice, guidance and practical activities, this user-friendly guide will help you to develop flexible cognitive styles, use alternative strategies to replace an over-reliance on rote learning for pupils, try to access basic facts, understand the implications of underlying skills such as working memory on learning, implement effective pre-emptive measures before demotivation sets in, recognise the manifestations of maths anxiety and tackle affective domain problems, find approaches to solve word problems, select appropriate materials and visual images to enhance understanding. With useful features such as checklists for the evaluation of books and an overview of resources, this book will equip you with essential skills to help you tackle your pupils' maths difficulties and improve standards for all learners. This book will be useful for all teachers, classroom assistants, learning support assistants and parents. [Maths 5-11](#) Caroline Clissold, 2019-10-23 Focusing on good progression from Reception to Year 6, Maths 5-11 provides a clear and concise presentation of the fundamental knowledge that all primary mathematics teachers need. It provides readers with practical knowledge for the planning and assessment necessary to employ the theories expressed in the book. Ranging from number sense and place value to looking in depth at the various aspects of fractions and mathematical reasoning, this book explores mathematical connections inside and outside

of the curriculum the relation of mathematics to other primary subjects such as science geography and art mathematics teaching practices from high performing jurisdictions across the world the progression of learning from primary school to secondary school the big ideas in mathematics and activities that provide strategies for children to use responsively and creatively Helping primary teachers and mathematics coordinators improve and enhance their mathematical subject knowledge and pedagogy Maths 5 11 will re instil an excitement about teaching mathematics among its readers Doubling and Halving ,199?
