Strategic Airline Retailing and Solutions Nawal K. Taneja, 2023-11-07 While airlines have been looking into the next generation of retailing practices for several years developments since the beginning of 2020 have accelerated the need to take retailing to a new paradigm A singular focus now is the ever changing demands of the current and next generation of customers and employees and managing their values Examples of customer needs include a mobile first approach rich content augmented and personalized end to end services with seamless consistent and contextualized experiences While these concepts of retailing are not new the challenge has been in bringing them to reality due to a the constraints of legacy systems and processes while transitioning to next generation retailing systems b the inaccessibility of real time data coming from a wide variety of sources such as online shopping social media and operations c the inability to monitor real time behavior of customers and employees d the lack of effective collaboration and cooperation within the travel ecosystem and e the increasing lack of trust on the part of customers This book provides a framework and technologies to convert retailing concepts from shopping to fulfillment into reality by a renovating an airline s core and ancillary products b progressing faster on digital and organizational transformation journeys to make better data based decisions about retailing c getting better at managing customer value by knowing who the customers are d empowering supporting and listening to employees to meet their expectations e asking the right questions to solve complex retailing problems relating to customers competitors and stakeholders and f questioning common held beliefs about the airline business This book is indispensable for all airline executives and senior managers as well as airline and airport commercial managers It will also be enormously beneficial for retailers dealing with airlines and airports

Artificial Intelligence Is Here to Stay, You Better Learn It Now! Patience Fuzane, Artificial Intelligence AI is no longer just a futuristic concept it is here and it is transforming the way we live work and interact If you are not actively harnessing the power of AI you risk being left behind in an increasingly competitive and fast paced world Just like the calculator revolutionized the way we perform basic arithmetic AI is now stepping in to revolutionize a wide array of fields academic business and social When the calculator was first introduced many feared it would take away jobs and diminish mental faculties But over time we have come to view it as an indispensable tool one that saves us time and allows us to focus on more complex tasks In much the same way AI is poised to become an essential part of our daily lives yet its potential goes far beyond what a calculator ever offered From automating mundane tasks to solving

complex problems AI has the power to revolutionize virtually every aspect of our existence As we move forward it is crucial to embrace these technological advancements and learn how to effectively incorporate them into our routines This book is a comprehensive guide to understanding and utilizing some of the most widely used AI tools available today Across the following chapters I will take you on a deep dive into AI solutions across various categories including generative AI productivity tools coding assistants design tools data analysis and more Whether you re a student a business owner or simply someone curious about how AI can improve your life this book is designed to help you navigate and leverage these powerful technologies to meet your academic professional and social needs

Artificial Intelligence and Evaluation Steffen Bohni Nielsen, Francesco Mazzeo Rinaldi, Gustav Jakob Petersson, 2024-09-25 *Artificial Intelligence and Evaluation* Emerging Technologies and Their Implications for Evaluation is a groundbreaking exploration of how the landscape of program evaluation will be redefined by artificial intelligence and other emerging digital technologies In an era where digital technologies and artificial intelligence AI are rapidly evolving this book presents a pivotal resource for evaluators navigating the transformative intersection of their practice and cutting edge technology Addressing the dual dimensions of how evaluations are conducted and what is evaluated a roster of distinguished contributors illuminate the impact of AI on program evaluation methodologies Offering a discerning overview of various digital technologies their promises and perils they carefully dissect the implications for evaluative processes and debate how evaluators must be equipped with the requisite skills to harness the full potential of AI tools Further the book includes a number of compelling use cases demonstrating the tangible applications of AI in diverse evaluation scenarios The use cases range from the application of GIS data to advanced text analytics As such this book provides evaluators with inspirational cases on how to apply AI in their practice as well as what pitfalls one must look out for *Artificial Intelligence and Evaluation* is an indispensable guide for evaluators seeking to not only adapt to but thrive in the dynamic landscape of evaluation practices reshaped by the advent of artificial intelligence The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

The Nature of Business

Transformation Richard Kelly, 2022-03-17 This book is a practical guide for business professionals to develop and improve business intelligence and collective decision making within their organisation It proposes a progressive reconfiguration of the traditional business operating system using a nature inspired framework called swarm facilitation that enables and facilitates collective decision making Organisations have followed the same rigid formula of problem solving and decision making for over 100 years It is dominated by centralised governance and pyramid decision making Such an approach is no longer fit for purpose in an environment of employee disengagement artificial intelligence AI superintelligence and Covid 19 fallout By the end of this book readers will be able to solve organisational problems and challenges collectively using swarm intelligence upgrade and future proof business operating systems to reflect a more collective decision making approach fit for the new

connected economy and Industry 4.0 embrace mindset quotients that support people working in a more networked self organising and collective environment The book is important reading for leaders and managers who are focused on building organisational capital and engagement and gaining value from the emerging technology by evolving their business operating system into a digital ecosystem as part of an ongoing digital transformation strategy It will also appeal to experts working in the field of organisational change and development both within the organisation and as consultants
