Seemer, 1996-04-23 This innovative book provides practical cost effective solutions to on the job environmental compliance problems Departing from the legal or policy slant favored by most books on environmental management Environmental ROI cuts through the maze of present day compliance regulations and finds ways to lower compliance related costs and increase returns on these expenditures Twenty four contributing environmental experts draw on their own diverse experiences in industry consulting and the law to cover the full range of environmental compliance issues from effective contracting and negotiating to waste minimization and prevention They demonstrate clearly how companies can increase productivity cut costs and protect the environment all at the same time *Fieldwork: Ethics and politics in fieldwork* Christopher John Pole, 2005 Privacy Michael Filimowicz, 2022-02-23 Privacy Algorithms and Society focuses on encryption technologies and privacy debates in journalistic crypto cultures countersurveillance technologies digital advertising and cellular location data Important questions are raised such as How much information will we be allowed to keep private through the use of encryption on our computational devices What rights do we have to secure and personalized channels of communication and how should those be balanced by the state's interests in maintaining order and degrading the capacity of criminals and rival state actors to organize through data channels What new regimes may be required for states to conduct digital searches and how does encryption act as countersurveillance How have key debates relied on racialized social constructions in their discourse What transformations in journalistic media and practices have occurred with the development of encryption tools How are the digital footprints of consumers tracked and targeted Scholars and students from many backgrounds as well as policy makers journalists and the general reading public will find a multidisciplinary approach to questions of privacy and encryption encompassing research from Communication Sociology Critical Data Studies and Advertising and Public Relations *Adventure*, 1911 *Customer Satisfaction is Worthless, Customer Loyalty is Priceless* Jeffrey Gitomer, 1998 A nationally syndicated columnist and sales trainer shows how to convert satisfied customers into loyal customers Includes real world techniques helpful checklists inspiring stories and thought provoking self tests Don't Shoot the Messenger Saira Viola, 2016 **The Transparency Fix** Mark Fenster, 2017-07-18 Is the government too secret or not secret enough Why is there simultaneously too much government secrecy and a seemingly endless procession of government leaks The Transparency Fix asserts that we incorrectly assume that government information can be controlled The same impulse that drives transparency movements also drives secrecy advocates They all hold the mistaken belief that government information can either be released or kept secure on command The Transparency

Fix argues for a reformation in our assumptions about secrecy and transparency The world did not end because Julian Assange WikiLeaks and Edward Snowden released classified information But nor was there a significant political change Transparency has become a buzzword while secrecy is anathema Using a variety of real life examples to examine how government information actually flows Mark Fenster describes how the legal regime s tenuous control over state information belies both the promise and peril of transparency He challenges us to confront the implausibility of controlling government information and shows us how the contemporary obsession surrounding transparency and secrecy cannot radically change a state that is defined by so much more than information **Mademoiselle** ,1995-04 Winning the Media Game Phil Ross Boynton,1989 **Crosscurrents** Mark Charlton,Paul Barker,1994 **Marketing** Gary M.
