Connie Willis's Science Fiction Carissa Turner Smith, 2022-10-31 In spite of Connie Willis's numerous science fiction awards and her groundbreaking history as a woman in the field there is a surprising dearth of critical publication surrounding her work Taking Doomsday Book as its cue this collection argues that Connie Willis's most famous novel along with the rest of her oeuvre performs science fiction's task of cognitive estrangement by highlighting our human inability to read the times correctly and yet also affirming the ethical imperative to attempt to truly observe and record our temporal location Willis's fiction emphasizes that doomsdays happen every day and they risk being forgotten by some even as their trauma repeats for others However disasters also have the potential to upend accepted knowledge and transform the social order for the better and this collection considers the ways that Willis pairs comic and tragic modes to reflect these uncertainties

Medieval Crime Fiction Anne McKendry, 2019-05-14 Combining elements of medievalism the historical novel and the detective narrative medieval crime fiction capitalizes upon the appeal of all three the most famous examples being Umberto Eco's The Name of the Rose one of the best selling books ever published and Ellis Peters' endearing Brother Cadfael series Hundreds of other novels and series fill out the genre in settings ranging from the so called Celtic Enlightenment in seventh century Ireland to the ruthless Inquisition in fourteenth century France to the mean streets of medieval London The detectives are an eclectic group including weary ex crusaders former Knights Templar enterprising monks and nuns and historical poets such as Geoffrey Chaucer This book investigates the enduring popularity of the largely unexamined genre and explores its social cultural and political contexts

Doomsday Book Connie Willis, 1993-08-01 Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil suffering and the indomitable will of the human spirit A tour de force The New York Times Book Review For Kivrin preparing to travel back in time to study one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone For her instructors in the twenty first century it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her In a time of superstition and fear Kivrin barely of age herself finds she has become an unlikely angel of hope during one of history's darkest hours
