ought never to forget that by actually perfecting one piece one learns more than by beginning or half finishing ten Let it rest let it rest and keep going back to it and working at it over and over again until it is completed as a finished work of art until there is not a note too much or too little not a bar you could improve upon Whether it is beautiful also is an entirely different matter but perfect it must be perfect and unassailable That is the idea of Music and it is the idea of Pure Design The very last thing for the painter who would be an artist to think of is originality

On Drawing and Painting (Classic Reprint) Denman Waldo Ross,2017-10-13 Excerpt from On Drawing and Painting IN beginning the study of any art we must learn what materials and terms are properly used in it and what modes of expression Then we ought to have some practice in using the materials and terms and exercises in the different modes following the example of the masters This is equally true whether we propose to practice the art as a profession or wish merely to understand and appreciate Without some experience without some technical knowledge and practice our understanding is sure to be superficial and our appreciation limited It is interesting to remember the passage of Aristotle in the Politics 1 where he says It is difficult if not impossible for those who do not perform to be good judges of the performances of others They who are to be judges should also be performers If we have never been performers we deny this proposition in self defence but if we have ever practiced any art we know that we are better critics and better judges just for that reason Aristotle does not say that it is impossible for any one to be a good judge who is not also a performer It is difficult he says if not impossible Nor does he say that the performer is sure to understand he is simply more likely to understand than any one who has never been a performer We know very well how many performers there are who do not understand who have neither appreciation nor judgment and we are willing to admit that certain persons not many are good judges though they have had no technical training We may be sure however that they would be better judges if they had had some training About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
