Examreview, 2018-03-09 A supply chain is a network of retailers distributors transporters storage facilities and suppliers that participate in the sale delivery and production of a particular product The concept of supply chain often involves backward integration acquiring ownership of one s supply chain in the hope of reducing supplier power and thus reducing input costs The four major functional components are demand planning manufacturing planning and scheduling supply planning transportation planning The reconfigured module 1 BSCM exam covers the basics The exam attempts to test your basic understanding towards supply chain and the various PIM production and inventory management concepts Many people consider this exam as the easiest one To assure exam success you need to read and learn as much as possible Our ExamFOCUS notes provides knowledge material to enhance your exam readiness we help answer those tough questions that cover advanced knowledge and concepts not commonly found in the standard study material Still the coverage of the exam is huge Expecting full and complete coverage of all the knowledge items from a single source is unrealistic You are therefore advised to use this book together with other study resources for the best possible preparation **Cpim Part 2 Module 1**

Certification Exam Examfocus Study Notes & Review Questions 2018/19 Examreview, 2018-03-12 SMR was the final module to take in the past Now it becomes module 1 of the new part 2 exam Is it tough Well in a sense yes It is tough because there is no fixed answer to the test questions You are asked to choose the best possible answer among all potentially OK answers Also most questions are long and with complicated scenarios to confuse you To pick up the politically correct answers you have to use your business sense to make judgment on a case by case basis SMR is all about supply side management at a higher global and strategic level What is serious supply management all about Accenture has developed seven principles of supply chain management 1 Segment customers based on their service needs 2 Design the logistics network based on service requirements 3 Listen to the signals of market demand and plan accordingly 4 Differentiate products based on actual consumer demand 5 Strategically manage the sources of supply 6 Develop a supply chain wide technology strategy 7 Adopt measures that apply to every link in the supply chain Because of advances in manufacturing and distribution the cost of developing new products and services is dropping and time to market is speeding up This has resulted in increasing customer demands local and global competition and increased pressure on the supply chain To stay competitive companies must reinvent themselves so that the supply chain sourcing and procurement production scheduling order fulfillment inventory management and customer care is no longer a cost based back office exercise but rather a flexible operation designed to effectively address today s challenges If you have been specializing in manufacturing or shop floor functions it is now the time to move yourself to a managerial position you need to see things from a broader MBA style perspective **Examessentials CPIM Recertification Exam 2011** ExamREVIEW, 2010-10-31 The CPIM recertification

exam has a lot of questions that ask for your best decisions i.e. how you will tackle a situation in a production environment. In fact of the questions you will encounter in the exams a significant portion of them requires that you pick the best possible options. These best options are often based on experience and best practices not easily found in the standard exam text books. There are also plenty of questions on concepts and theories. These are the questions quite closely related to the published objectives of the official BOK. They mostly ask for the correct definitions of terms. Our CPIM Study Guide RECERTIFICATION Exam Edition goes the expert advice way. Instead of giving you the hard facts we give you information that covers the best practices. With this information you will always be able to make the most appropriate expert judgment in the exams.
