Essentials of Systems Analysis and Design Joseph S. Valacich, Joey F.

George, Jeffrey A. Hoffer, 2006 Written primarily for undergraduates. Systems Analysis Design courses in CIS and MIS programs. It is designed for courses seeking a streamlined approach to the course due to course duration, lab assignments, or special projects. The text reflects current changes in systems analysis and design. The move to structured analysis and design in the late 1970s was considered to be a revolution in how systems development was conducted. We are undergoing another revolution in systems development now as we move away from complex plan-driven development to new approaches called Agile Methodologies. Although the best known Agile Methodology is eXtreme Programming, there are many other approaches. More and more systems development involves the use of packages in combination with legacy applications and new modules. Coverage of the make versus buy decision and of the multiple sources of software and software components has been moved forward in the book to highlight the salience of these topics.

Systems Architecture Stephen D. Burd, 2003

Systems Architecture Fourth Edition is the most comprehensive introduction to information systems hardware and software in business. Each chapter has been thoroughly updated to reflect the changing nature of new technologies, and all of the end-of-chapter review has been enhanced and expanded. This new edition remains an indispensable tool for IS students and professionals with comprehensive coverage of current hardware, software, networking, data storage, applications development, and operating systems.

E-commerce Kenneth C. Laudon, Carol Guercio Traver, 2007 In today's evolving business environment, E-commerce business technology society introduces students to the concepts and practice of electronic commerce. This book emphasizes the three major forces behind e-commerce: business, fundamentals, technology, opportunities, and social issues. In every chapter, these three themes come alive with the discussion of e-commerce concepts in the areas of economics, marketing, and information technology, and with the presentation of real-world e-commerce business cases and stories. The result is a coherent framework for organizing a complex topic, which promotes a clear understanding of how e-commerce is evolving. Book jacket.
