The new edition of *Speech Language and Hearing Programs in Schools: A Guide for Students and Practitioners* reflects these events. The new editors/contributors to the first edition have substantially updated and revised all chapters and have added new material on the reauthorization of IDEA, literacy acquisition, pediatric dysphagia, children from culturally diverse backgrounds who are increasingly represented in speech language pathology caseloads, and much more. The book also includes chapter objectives, case studies, and Internet resources and is supplemented by an instructor's manual.
