

Decimal Performance Task Cards

By
The Trend "E" Teacher

Product Description:

Students will use these as a center activity. Students will practice their knowledge of decimals for each task card. Students will record their answers on Answer Sheet provided. Also, you may decide to play the game SCOOT. During this activity, students will stand up and move to where different cards are located. Timer will be used by teacher where students will "SCOOT" to the next card when the timer goes off. I suggest that teachers insert in card stock and have these laminated. The initial work will pay off given that you will be able to use these year after year.

Product Details:

- 48 Performance Task Cards
- Specific Skills:
 - o Understanding place value of decimal numbers (30 cards)
 - o Determining whether two sets of decimal numbers are equivalent (18 cards)

Common Core Mathematics in a PLC at Work®, Grades 3-5 Timothy D. Kanold, 2012-04-12 This teacher guide illustrates how to sustain successful implementation of the Common Core State Standards for mathematics grades 3-5. Discover what students should learn and how they should learn it at each grade level. Comprehensive research affirmed analysis tools and strategies will help you and your collaborative team develop and assess student demonstrations of deep conceptual understanding and procedural fluency. Competency-Based Education Rose L. Colby, 2019-01-02 Competency Based Education introduces educators to a new model for anytime anywhere schooling and provides tools and curriculum resources for redesigning the traditional structures of K-12 schools. Based on pioneering work across multiple states, the book shows how educators can design central elements of competency based education including performance tasks, personal learning plans, and grading systems to meet the needs and interests of all students. Rose L. Colby provides critical tools for creating these elements in collaborative teams and engaging stakeholders such as educators, parents, and community members. The book incorporates case studies and voices from the field and examines the variety of competency models that schools have adopted, highlighting the benefits for students. Competency Based Education provides a much needed resource at a time when states, districts, and schools are working to implement competency based models and experimenting with new accountability systems that include evidence of learning beyond standardized tests. The concerns regarding CLIL schools circle around the feasibility of the policy, particularly regarding the challenges of teaching and learning new subject content in an additional language in primary education. In response, the author tackles the fundamental questions surrounding CLIL implementation with a focus on fostering deeper learning using examples from the Taiwanese context. The chapters delve into the key planning issues in primary education CLIL and explore the language teaching awareness of CLIL teachers in various subject areas. In addition to proposing a DL approach, the book also discusses the necessity for teachers' awareness of subject specific literacies in curriculum planning, highlighting the importance of scaffolding primary students to achieve deeper learning in CLIL classrooms. As a whole, Chen stimulates discourse and research in CLIL planning and teaching, thereby informing CLIL teacher education. This book is an essential read for researchers and research students interested in deeper learning and
