Try this free AAPC CPC medical coding practice test to see what's on a certification exam for medical coders. The test is also applicable to the AHIMA CCA medical coding exam

Certification as a medical coder demonstrates one's knowledge and skill in the field of medical coding and can help one get a job as a medical coder and earn more in pay. The American Academy of Professional Coders (AAPC) and AHIMA provide training and credentialing for medical coders across the United States. After passing the AAPC medical coding exam, a medical coder earns the Certified Professional Coder (CPC) credential and after passing the AHIMA medical coding exam, the medical coder earns the Certified Coding Associate (CCA) credential. The medical coder exam must be passed to earn certification. The AAPC medical coding exam has 150 multiple choice questions and five hours and forty minutes is given to complete the exam. The AHIMA exam has between 90 and 115 questions and must be completed in two hours.

For a comprehensive practice test, covering both the AAPC CPC exam and the AHIMA CCA exam, use our [Medical Coding Practice Test](#).
