

Online + Face-to-Face: Succeeding with Blended Learning

“The blended approach combines the best elements of online and face-to-face learning. It is likely to emerge as the predominant model of the future – and to become far more common than either one alone.”

Aslanian, Henry M. Brickell, 1988-01-01 This report presents the findings from a study to describe how Americans in transition study for college credit and to establish the extent of degree versus nondegree study Introductory materials discuss why and how the study was made and the annual rate of adult credit study Part I describes the demographic characteristics of the 1 000 adults interviewed who had taken a course or an entire program for college credit at any time in the previous two years A discussion of each characteristic makes observations and offers interpretations A graph illustrating the findings follows each discussion Part II begins with descriptions of the type and nature of degree study among adults and then continues with descriptions of patterns of adult study among both degree and nondegree students combined The same format as in part I is followed observations interpretations and a bar graph Part III concludes the report with descriptions of differences among adult students with

respect to demographic characteristics and patterns of study YLB Campus Daze George Gibbs,1992 **Readiness Realities** Pamela Hollander,2017-02-03 The new U S national standards movement has pushed us at warp speed from Common Core curriculum standards to updated assessments for college readiness but we have not fully examined what it means to be college ready Why is it that roughly half of all high school students need remedial classes before being considered ready for college level work Current public policies aim to eliminate the need for remedial college classes by ratcheting up instruction and expectations at the K 12 level but if we do not find out what these students are missing how can we expect to be successful For higher education scholars and practitioners and those generally interested in the future of college this book helps tell a novel story about the transition to college from the perspective of an experienced college professor The first year experience is conceptualized as a two way relationship between students and colleges involving introductions resistance or acceptance collaboration and exchange of ideas and learning There are both success stories and stories that end in a parting of ways These stories show what college readiness really means and offer valuable insights about the academic social monetary and other forces that can overwhelm the typical college bound student Higher education scholars and professionals will benefit from these rich and detailed accounts as they help shape the landscape of 21st century college readiness **Best Answers to the 201 Most Frequently Asked Questions about Getting into College** Mary Kay Shanley,Julia Johnston,2004-09-21 Offers essential answers to students and parents as they go from high school to college Each year millions of high school students parents and guidance counselors address the issue of college Choosing a college taking the required entrance exams qualifying for admission paying tuition these are some of the thornier aspects of the college experience Parents and students alike are faced with myriad questions as they prepare to make this momentous decision 201 Most Frequently Asked Questions About Getting into College is a fail safe guide to successfully navigating the road from high school to college The book walks the reader through every step of the college journey and provides information on College entrance exams Selecting the right school Distance learning Balancing work and school Scholarships and financial aid Entrance interviews and more **Rethinking Student Transitions** Dallin George Young,Bryce D. Bunting,2024-07-08 Rethinking Student Transitions How Community Participation and Becoming Can Help Higher Education Deliver on its Promise presents a reimagined theory of student transitions in college The authors contend that while previous theorizations have helped move the practice of supporting student success forward through the latter half of the twentieth century earlier conceptualizations and models have led to an inconsistent and incomplete picture of students experiences in transition The book offers both a review and critique of current models of transition and then develops a new conceptual viewpoint based in the ideas of situated learning and transitions as becoming The second half of the book is dedicated to using this new theoretical perspective to illustrate how higher education professionals can create conditions to support students in transition more intentionally with a particular view toward supporting historically marginalized students

including racially and ethnically minoritized students first generation students and post traditional students
