*High performance, professional day and night network camera*

The AXIS 221 Day & Night Network Camera is a high performance camera for professional surveillance and remote monitoring. AXIS 221 is designed to meet demanding security installations under all light conditions and is supported by the industry's largest base of application software for video and alarm management.

Thanks to the high-quality Pentax lens and progressive scan CCD (non-interlaced) image sensor, this camera delivers crisp, clear images even of objects moving at high speed in the dark. The AXIS 221 features a removable infrared cut filter, which enables color video in high and low light conditions as well as IR sensitive black/white video at night.

The integrated Power over Ethernet option eliminates the need for a power outlet, as power is supplied to the camera via the network cable, and a steady power stream can be guaranteed with a UPS (Uninterruptible Power Supply). Furthermore, the unique combination of simultaneous Motion JPEG and MPEG-4 streams allows systems to be optimized for both image quality and bandwidth-efficiency. Additionally, the product offers a complete set of security features such as multi-level password protection, IP address filtering and HTTPS encryption. The support for HTTPS provides a secure channel between camera and application and enables authentication of the video source.

- IR sensitivity for high quality images in low light conditions
- Progressive Scan provides full resolution images of moving objects, without distortions
- Power over Ethernet (IEEE 802.3af)
- Up to 45 frames per second in VGA, 640 x 480 resolution
- Simultaneous Motion JPEG and MPEG-4
- Multi-window motion detection

CCTV Surveillance Herman Kruegle, 2011-03-15. This revision of the classic book on CCTV technology. CCTV Surveillance provides a comprehensive examination of CCTV covering the applications of various systems, how to design and install a system and how to choose the right hardware. Taking into account the ever changing advances in technology using digital techniques and the Internet, CCTV Surveillance Second Edition is completely updated with the recent advancements in digital cameras and digital recorders, remote monitoring via the Internet and CCTV integration with other security systems. Continuing in the celebrated tradition of the first edition, the second edition is written to serve as a useful resource for the end user as well as the technical practitioner. Each chapter begins with an overview and presents the latest information on the relevant equipment, describing the characteristics, features and application of each device. Coverage of aging or obsolete technology is reduced to a historical perspective and eight brand new chapters cover digital video technology, multiplexers, integrated camera lens housing, smart domes and rapid deployment CCTV systems. Serves as an indispensable resource on CCTV theory. Includes eight new chapters on the use of digital components and other related technologies that have seen a recent explosion in use. Fully illustrated, the book contains completely updated photographs and diagrams that represent the latest in CCTV technology advancements.

*The Art of Scientific Writing* Hans F. Ebel, Claus Bliefert, William E. Russey, 2004-03-12. Most scientists live in a publish or perish environment but few would describe themselves as brilliant or enthusiastic writers. Coming to the aid of all those wishing to improve the quality of their scientific writing, established researchers and aspiring students alike, three experienced authors, scientists from differing backgrounds and cultures, have compiled this classic guide. This new edition has been completely revised to reflect dramatic changes in communication over the past 15 years. The primary emphasis is on writing techniques, accurate expression, adherence to accepted standards and above all, clarity. But the authors also venture into communication technology and organizational as well as ethical aspects of science. Numerous appendices and a particularly comprehensive index complete this highly useful book. The authors have a passion not only for clarity and economy of style but also for precision and consistency. Nature. A wealth of information contained in a single book of manageable proportions.
