

## Career Exploration Research Paper

---

The goal of this assignment is to give you the opportunity to explore in detail a career of your choice. The paper should be 5-8 pages in length and double-spaced. In order to prepare to write this report, you should first complete several informal assessments. We will do some of these in class and you may want to do more on Eureka. A visit to the Career Center on East Campus is highly recommended as preparation for this paper. If you cannot decide on a career to research please make an appointment to talk with me (575 7721) and I'll help you.

Use the Researching Careers handout to find your information. Then follow the outline provided below in order to achieve all the credit available.

### **Part 1: Introduction: Personal Assessment.**

In the introductory section of your paper, explain how you came to decide on this career for your research. Did someone inspire you to follow this career path? Are specific personality types or skills required for this career? Using the results of the Myers Briggs (or the Do What You Are assessment), the Strong and the values and interests exercises we completed in class, outline why you think this career is a match for your personality, interests and values. If you aren't sure, try to think of what draws you to this career. If you like, here is the place where you might describe your fantasy career. The career you chose to research may or may not live up to parts of your ideal.

### **Part 2: Requirements for entry into your career.**

In this section, detail the education, experience, licenses and skills necessary for the career. Most of this information may be located via Eureka, but also check the Bureau of Labor Statistics to make sure there is a need for you in the future! From your interviews with people in the field you should also get the unwritten rules of entry into this profession. What majors are recommended? What are related occupations for this career?

### **Part 3: Describe the job.**

Describe a day in the life of a member of your career. Are there different career paths you might take? Include physical environment, time schedule, location, salary and benefits. Interview someone employed in this field currently. What do they like and dislike about their job? What advice would they give you? What do you think you will like and dislike about this occupation? What is the typical pay? (Try to find the most up to date local information.) What is the job outlook? Can you locate a current job advertisement? (Attach it to your paper in an appendix.) What is the job outlook? What are the growth opportunities?
