**Thermal Comfort Assessment of Buildings** Salvatore Carlucci, 2013-05-24 A number of metrics for assessing human thermal response to climatic conditions have been proposed in scientific literature over the last decades They aim at describing human thermal perception of the thermal environment to which an individual or a group of people is exposed More recently a new type of discomfort index has been proposed for describing in a synthetic way long term

phenomena Starting from a systematic review of a number of long term global discomfort indices they are then contrasted and compared on a reference case study in order to identify their similarities and differences and strengths and weaknesses Based on this analysis a new short term local discomfort index is proposed for the American Adaptive comfort model Finally a new and reliable long term general discomfort index is presented It is delivered in three versions and each of them is suitable to be respectively coupled with the Fanger the European Adaptive and the American Adaptive comfort models **Building Services Journal** ,1997 *Intelligent Buildings: An Introduction* Derek Clements-Croome,2013-10-08 This book introduces the concept of Intelligent Buildings to the wider construction community Edited by the Father of Intelligent Buildings Derek Clements Croome the book explains that intelligent buildings should be sustainable healthy technologically aware meet the needs of occupants and business and should be flexible and adaptable to deal with change This means the processes of planning design construction commissioning and facilities management including post occupancy evaluation are all important Buildings comprise many systems devised by many people and yet the relationship between buildings and people can only work satisfactorily if there is an integrated team with a holistic vision **Getting to Grips with BIM** James Harty,Tahar Kouider,Graham Paterson,2015-12-14 With the UK government s 2016 BIM threshold approaching support for small organisations on interpreting filtering and applying BIM protocols and standards is urgently required Many small UK construction industry supply chain firms are uncertain about what Level 2 BIM involves and are unsure about taking first steps towards having BIM capability As digitisation increasingly impacts on work practices Getting to Grips with BIM offers an insight into an industry in change supplemented by practical guidance on managing the transition towards more widespread and integrated use of digital tools to manage the design construction and whole life use of buildings
