CICTP 2012, 2012 **Multimodal Transportation Systems**, 2012 *Climate Crisis and Resilient Transportation Systems* Eftihia G. Nathanail, Nikolaos Gavanias, Evangelos Adamos, 2025-03-09 This book reports on original research and practical findings fostering resilient and sustainable transportation systems in response to the climate crisis Being the first volume of the proceedings of the 7th Conference on Sustainable Mobility CSuM 2024 held on September 4 6 2024 at Plastiras Lake Greece it focuses on research and practical strategies for developing sustainable and resilient transportation systems and guidance for their green and digital transition All in all this book offers extensive information to academicians researchers practitioners and decision makers working on effective strategies to enhance resilience of transportation systems

Technologies for Sustainable Transportation Infrastructures G. L. Sivakumar Babu, Raviraj H. Mulangi, Sreevalsa Kolathayar, 2024-09-05 This book presents select proceedings of the International Conference on Sustainable Infrastructure Innovations Challenges and Opportunities 2023 SIIOC 2023 The topics covered include road user safety and traffic mitigation for sustainable highways transportation geotechnics design and construction approaches for green highways water and wastewater treatment sustainable cities and challenges in the management of water resources This book serves as a resource material for budding researchers and industry professionals interested in developing solutions for sustainable infrastructure

Automation and Computational Intelligence for Road Maintenance and Management Hamzeh Zakeri, Fereidoon Moghadas Nejad, Amir H. Gandomi, 2022-07-13 Automation and Computational Intelligence for Road Maintenance and Management A comprehensive computational intelligence toolbox for solving problems in infrastructure management In Automation and Computational Intelligence for Road Maintenance and Management a team of accomplished researchers delivers an incisive reference that covers the latest developments in computer technology infrastructure management The book contains an overview of foundational and emerging technologies and methods in both automation and computational intelligence as well as detailed presentations of specific methodologies The distinguished authors emphasize the most recent advances in the maintenance and management of infrastructure robotics automated inspection remote sensing and the applications of new and emerging computing technologies including artificial intelligence evolutionary computing fuzzy logic genetic algorithms knowledge discovery and engineering and more Automation and Computational Intelligence for Road Maintenance and Management explores a universal synthesis of the cutting edge in parameters and indices to evaluate models It also includes Thorough introductions to management science and the latest methods of automation and the structure and framework of automation and computing intelligence Comprehensive explorations of advanced image processing techniques recent advances in fuzzy and diagnosis automation Practical discussions of segmentation and fragmentation and different types of features and feature extraction methods In depth examinations of methods of classification along with various developed methodologies and models of quantification evaluation and indexing in

automation Perfect for postgraduate students in road and transportation engineering evaluation and assessment Automation and Computational Intelligence for Road Maintenance and Management will also earn a place in the libraries of researchers interested in or working with the evaluation and assessment of infrastructure

Models and Technologies for Smart, Sustainable and Safe Transportation Systems Stefano de Luca,Roberta Di Pace,Chiara Fiori,2021-07-28 Innovative and smart mobility systems are expected to make transportation systems more sustainable inclusive and safe Because of changing mobility paradigms transport planning and design require different methodological approaches Over twelve chapters this book examines and analyzes Mobility as a Service MaaS travel behavior traffic control intelligent transportation system design electric connected and automated vehicles and much more

Development of Ultra-High Performance Concrete against Blasts Chengqing Wu,Jun Li,Yu Su,2018-03-19 Development of Ultra High Performance Concrete against Blasts From Materials to Structures presents a detailed overview of UHPC development and its related applications in an era of rising terrorism around the world Chapters present case studies on the novel development of the new generation of UHPC with nano additives Field blast test results on reinforced concrete columns made with UHPC and UHPC filled double skin tubes columns are also presented and compiled as is the residual load carrying capacities of blast damaged structural members and the exceptional performance of novel UHPC materials that illustrate its potential in protective structural design As a notable representative ultra high performance concrete UHPC has now been widely investigated by government agencies and universities UHPC inherits many positive aspects of ultra high strength concrete UHSC and is equipped with improved ductility as a result of fiber addition These features make it an ideal construction material for bridge decks storage halls thin wall shell structures and other infrastructure because of its protective properties against seismic impact and blast loads Focuses on the principles behind UHPC production properties design and detailing aspects Presents a series of case studies and filed blast tests on columns and slabs Focuses on applications and future developments

Information Processing and Network Provisioning Michel Kadoch,Mohamed Cheriet,Xuesong Qiu,2025-09-20 The proceedings set CCIS 2593 until CCIS 2596 constitutes the proceedings of the Third International Conference on Information Processing and Network Provisioning ICIPNP 2024 which took place in Qingdao China during November 8 10 2024 The 153 full papers presented in the proceedings were carefully reviewed and selected from 277 submissions They deal with up to date research ranging from information and signal processing and network provisioning to computer communications and network applications
